

VSLF-Product Declaration

for lacquers, paints and
similar coating materials

date: October, 2th 2009

Company: MAFI Naturholzboden GmbH, A-5212 Schneegattern, Austria			
Comercial product name: Holzbodenseife natur			
1.1 Product-information: water based soap solution			
1.2 Colour: colourless - yellowish			
2. Binder / plasticizer	wt-%	toxicity class	5. Solvents
potassium soap from vegetable oil	< 20		water > 70
			aliphatic hydrocarbon
			- content of aromatics
			aromatic hydrocarbon
3. Pigments:	wt-%		alcohole
3.1 Inorganic pigments			glycole
titanium dioxide			
- sulfate-process			esters
- chloride process			ketone
iron oxide			
chromium oxide green			
lead chromate			6. Additives
			wt-%
			6.1 desiccants
			(metal content)
			mangane
3.2 Organic pigments	wt-%		lead
carbon black			cobalt
coloured pigments			zirconium
			zinc
			calcium
3.3 Anticorrosive pigments	wt-%		6.2 Preservative agents
zinc dust			wt-%
zinc phosphate			toxicity. class
			6.3 anticreaming agent
			6.4 other additives
4. Fillers	wt-%		derivatives of cellulose
calcium carbonate			trisodiumcitrate < 7
barite			
talc / clay stone			
silica			7. Biocide
			wt-%
			toxicity class
Coments:			
Keep away from children		The interpretation requires technical prerequisites. Consider additionally the directions of the technical instruction card and the DIN safety data sheet. With questions you contact please the supplier or manufacturer.
