

THE BRAVE INSPIRE

PIONEERS OF A NEW VISION

A broad vision. A horizon defined by a high and ambitious goal, to be contemplated and then achieved, to be admired and eventually conquered.

Be inspired, take a deep breath then go: start your adventure.

Because courage is not the absence of fear, but the ability to conquer it.

SANREMO
COFFEEMACHINES

made in italy

SANREMO, MORE THAN A COMPANY

A benchmark for innovation and excellence in espresso coffee machines production Made in Italy; an inspirational brand for coffee lovers who celebrate the art of coffee extraction.

This is Sanremo: A fusion of a strong production tradition and ambitious dreams. A winning combination that has given

the company international recognition and is now a point of reference in the coffee machine sector.

Our production department is second to none, our technological know-how, mixed with quality materials, workmanship and creativity.

An international research & development team, trained by the best in the coffee industry united with the same fighting spirit which Sanremo machines express.

MULTI-BOILER SYSTEM

High accuracy thermal stability thanks to the Sanremo multiboiler system with sophisticated electronic boards that continuously control temperature throughout all phases of extraction. Steam and coffee circuits work totally independent to maximize performance in every working condition (also under high workload).

Technical data		2 group	3 group
voltage	V	220-240 1N / 380-415 3N	
power input	kW	7.7	8.3
steam boiler services	lt	8	10
services boiler resistance power	kW	3.5	3.5
external pump power	kW	0.15	0.15
preheating boiler capacity	lt	2.8	2.8
preheating boiler resistance power	kW	1.5	1.5
cup-heater power	kW	0.20	0.25
units boiler capacity	lt	1.0	1.5
units boiler resistance power	kW	1.6	2.4
net weight	lb / kg	200 / 91	249 / 113
gross weight (with shipping crate)	lb / kg	308 / 140	375 / 170.5

The Revolution

Be in control, express yourself

CDS SYSTEM

Maximum precision and full control on the three phases of coffee extraction

POWER DRY STEAM

Low additional liquid during the milk steaming

GEAR PUMP PERFORMANCE

High and constant pressure in all conditions

DOUBLE SELECTION BUTTONS

Easy-touch setting with 6 different profiles for individual groups

SMART LEVER

Coffee doses fast manual selection

EVERYTHING UNDER CONTROL

System digital display to provide visibility of all working parameters

HEART OF STEEL

For maximum thermal stability:

- Groups in AISI 316L weight 22 lb / 10 kg each
- Filter holders AISI 316
- Boilers AISI 316

WI-FI CONNECTION

EASY APP

Tablet or smartphone barista's Webapp for setting parameters

Characteristics

AISI 316L STEEL GROUPS WITH 22 lb / 10 kg PURE STEEL
Exclusive Sanremo design ensure exceptional thermal stability and maximum resistance to oxidation and lime scale.

AISI 316 STAINLESS STEEL FILTER HOLDER WITH "COMPETITION FILTER"
Exclusive Sanremo design, with shape and volume designed to capture the best coffee aromas and fragrances.

AISI 316L STAINLESS STEEL FREE MOTION STEAM TAPS
Flexible control system for producing and dispensing steam.

AISI 316L STAINLESS STEEL STEAM WAND "COOL TOUCH"
Anti-burning feature even in conditions of prolonged use, fitted with "Latte Art" high-performance steam terminals.

CONTROL COFFEE DELIVERY SYSTEM (CDS)
Three phases extraction parameters full control (pre-infusion, infusion, post-infusion).

INDEPENDENT ADJUSTMENT OF THE PID INFUSION WATER TEMPERATURE
Precision setting (gradient $\pm 0.1^\circ\text{C}$ with measured constancy lower than 0.2°C).

INFUSION WATER DISPLAY
Indicates tea and herbal teas water brewing temperature. (In the two group it is shown with the steam boiler display)

STEAM BOILER DISPLAY
Indicates steam boiler temperature and pressure. (In the two group Opera it is shown with the infusion water display)

COFFEE UNIT SINGLE DISPLAY
Controls of all coffee extraction parameters.

MACHINE'S PROGRAMMING PARAMETERS DISPLAY
The internal display is a handy programming interface for the maintenance technician.

MIXED INFUSION HOT WATER FOR TEA AND HERBAL TEAS
Instantaneous mixing of fresh water and steam for a better chemical and organoleptic quality.

GEAR PUMPS
Dedicated to each individual group, allow to change the pressure during infusion.

STEAM CONTROL ADJUSTABLE ELECTRONIC PRESSURE SWITCH
Sensor with 0.02 bar precision that allows the chosen pressure and steam in the boiler to be kept constant in all conditions of use.

PROGRAMMABLE CUP WARMER TEMPERATURE
Allows the cups to be kept at the optimum temperature in the most different climatic conditions.

EASY SERVICE
Fast access to the internal parts for quick and easy technical service.

AUTO-DIAGNOSIS, STATISTICAL DATA, SCHEDULED MAINTENANCE
Maintenance can be scheduled according to litres or number of coffees dispensed.

AUTO-ON, AUTO-OFF AND DAY-OFF FUNCTION
Programmable on-off timer for each day and/or daily timetables.

AUTOMATIC CLEANING CYCLE
Process for coffee groups cleaning.

ENERGY SAVING SYSTEM
Component insulation and smart electronics for maximum energy efficiency.

GROUP FLUSHING
With a simple pressure of the button a small quantity of water is dispensed to allow the group to be always clean.

Optional

STAINLESS STEEL NAKED FILTER HOLDERS

HIGH POWER STEAMER TERMINAL (bigger holes diameter)

EXTERNAL VOLUMETRIC PUMP

Everything in an App

app dedicated to parameter settings for tablet

For each group it is possible to set:

Temperature

- water temperature T2
- group temperature T3
- steam temperature T5 (unique boiler for all groups)

Dose

- weight of ground coffee
- water dose
- pump pressure
- coffee weight

Infusion

- timing
- pump pressure
- amount of water

With the interface "Express yourself", the barista has total control of the extraction phase of his coffee and can manage each dispensing parameter according to his experience and professionalism.

To configure and set all the parameters of the machine, a specific App has been designed, which runs on tablet.

The application "Express yourself" utilizes a graphic interface, it is both user friendly and intuitive. This interface allows the user to set each groups relative parameters accurately for the perfect extraction.

Upon choosing the group (step A) and assigned a configured profile (step B,C) will define the general parameters of extraction: temperature and doses (step D,E). At the end it is possible to adjust the parameters relative of the 3 extraction's phases: pre-infusion, main infusion, post-infusion (step F).

PRE-INFUSION

INFUSION

POST-INFUSION

(step F) Adjust the 3 extractions phases

This operation is simplified by the App. Everytime the user modify one of these parameter the software update automatically. What was set prior to the modification.

CONFIGURATIONS

- STANDARD
- STRONG
- BALANCED
- SWEET & LIGHT
- ... N (set by the user)
- ... N (set by the user)

It is possible to save and recall new configurations set by the user or the default ones, specifically designed to allow even the less experienced bartenders to obtain immediately excellent results in the cup.

Clicking in "save new configuration" you can save your perfect espresso dispensing menu and transfer it into another machine.

Opera wi-fi

the easiest way

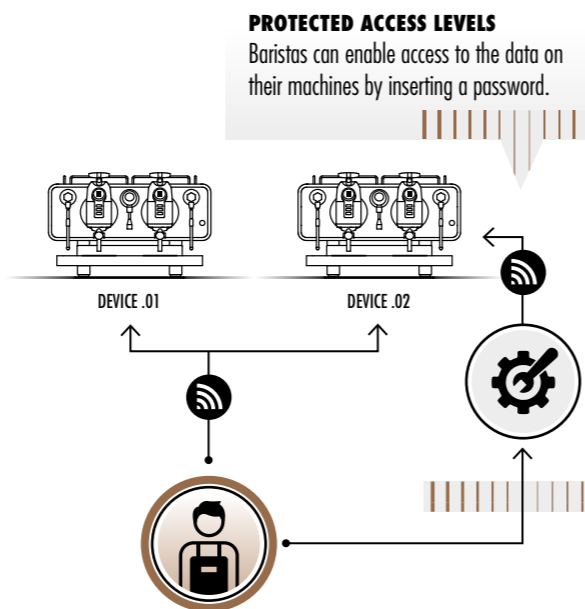

From today the Opera 2.0 is easier to handle, thanks to the *Sanremo Cloud* and *Webapp Expressyourself* interface, for an even easier and interactive using experience.

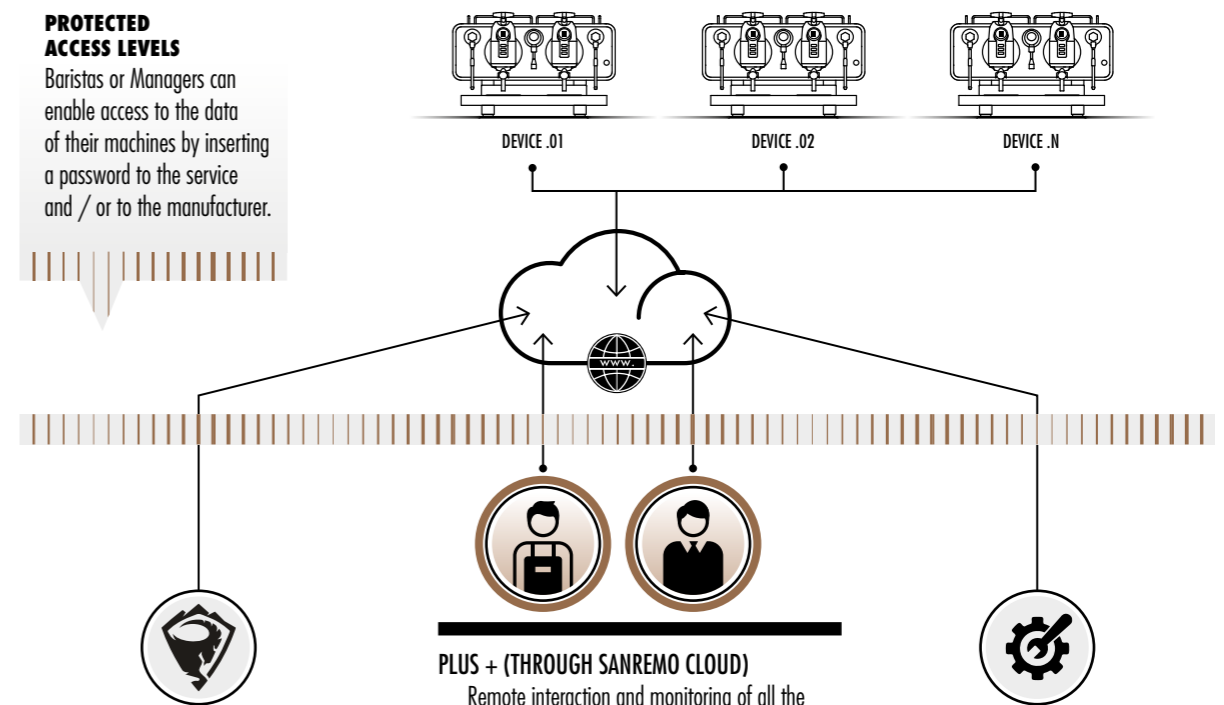

- Handling through Sanremo app, from smartphone, tablet, or pc, of all configuration parameters of the machine, without the need for physically being in front of it.
- Possibility of connecting multiple machines simultaneously for sharing, modifying, and setting of recipes and configurations.
- Simultaneous monitoring and handling of multiple machines by the same owner (e.g.: franchising in different locations).
- Statistical analysis of consumption, distribution, maintenance, configuration for all connected machines.
- Remote maintenance by the technician for updating, verification of the correct settings and parameters control.

INTRANET (WI-FI LOCAL NET)

PROTECTED ACCESS LEVELS
Baristas can enable access to the data on their machines by inserting a password.

INTERNET (GLOBAL NET) / SANREMO CLOUD

PROTECTED ACCESS LEVELS
Baristas or Managers can enable access to the data of their machines by inserting a password to the service and / or to the manufacturer.

- BARISTA**
- MANAGER**
- MAINTENANCE SERVICE**
- MANUFACTURER**
- SANREMO CLOUD**
- INTERNET GLOBAL NETWORK**
- LOCAL WI-FI NETWORK**

- PLUS + (USING THE LOCAL WI-FI NETWORK)**
- Reading and changing machine settings and parameters
 - Consumptions analysis for a better stock management
 - Meters reading of the coffee dispensed
 - Saving, restoring and sharing of settings (recipes) on your machines

Data exchange can only be effective in the wi-fi range.

- PLUS + (ENABLING THE MANUFACTURER)**
- Sending of App updates to the machines
 - Sending new settings (recipes)
 - Clearer and faster data collection aimed to resolve any technical/constructive problems
 - Useful information for the improvement and evolution of the product
 - Direct and continuous contact with the manufacturer

- PLUS + (THROUGH SANREMO CLOUD)**
- Remote interaction and monitoring of all the functions and performances of the machine
 - Reading and changing of the machine settings
 - Display of historical usage data
 - Consumptions analysis for a better stock management
 - Meters reading of the coffee dispensed
 - Saving, restoring and sharing of settings (recipes) on your machines

- PLUS + (ENABLING THE SERVICE)**
- Immediate report of anomalies
 - Diagnosis and possible remote troubleshooting
 - Reduction of machine downtime
 - Logistic planning and organization of maintenance interventions
