VOGUE★

WE CREATE INNOVATIVE, INFLUENTIAL AND BESPOKE VEHICLES, OUR STYLE HAS BEEN IMITATED BUT CAN NEVER BE DUPLICATED!

The Y62 Patrol is in itself an icon, an off-road legend with comfort and plenty of brute power to accommodate growing families and various lifestyles.

At Vogue Industries our modifications and styling choices will resemble your personal choice, whilst still catering for things like practicality and durability.

Whether you want to go for an off-road adventure, or just want to go for a nice drive on the beach, each build has a vision & we are here to turn that vision into reality!

FRONT END

FRONT BARS:

Front bar replacements not only make a huge difference in how your vehicle looks, but also improve the protection of the vehicle. Front bars can be colour coded to match the paint of the vehicle.

WINCHES:

Having a winch on your vehicle can help you out of tricky situations when you're out adventuring with your mates.

GRILLES:

If you're after aggressive styling then a grille replacement is an option that will drastically change the look of your front end.

WIDEBODY KIT

BEFORE

AFTER

DESIGNED AND BUILT IN-HOUSE, OUR Y62 PATROL WIDEBODY KIT ENHANCES THE STANCE, ADDS AN AGGRESSIVE EDGE TO THE STOCK BODY AND THE BEST PART, ITS COMPATIBLE WITH THE OEM CONTOURS OF THE VEHICLE.

WHEELS

Whether you are after a wheel that takes you onroad or offroad, we work with the best manufacturers and offer a large selection of wheels for your Patrol, and have specialised offsets to suit your application.

TYRES

Through years of personal testing, we are proud to recommend and work with these brands of tyres, each with their own unique benefits and capabilities.

BLACK BEAR

From custom built lifted trucks to extreme off-road, from urban high-ways to the farmers crop fields, from the mountains to the prairies, from the city to the country roads and for work or play, Black Bear tyres are following the black bear's footsteps quickly becoming the global drivers' smart choice.

TOYO

Toyo tyres give you strength, traction and confidence on any terrain, in all conditions. Whether picking the best line through ruts, taming outback tracks, or on a rain soaked highway trying to change lanes, Toyo's SUV and open country 4WD tyres are suited to the full spectrum of conditions that Australia has to offer.

NITTO

Nitto develops high-quality tyres that excel in off-road performance and on-road comfort. Whether you are looking for an aggressive mud or trail terrain tyre to tackle rocks, dirt and trails or a highway terrain that provides a smooth, quiet ride and a long treadlife, Nitto has a truck tyre for you.

REAR END

From rear bar protection, to a custom ladder, there are multiple solutions for styling and practicality.

VOGUE LADDER:

What started as a fun idea to get a short guy on the roof of a 4wd, has become a must have accessory. Our ladders make life easier by allowing safe access to your roof platform.

REAR TYRE CARRIER:

The rear tyre carrier gives you the ability to keep a spare wheel mounted to the rear of your vehicle while also keeping access to the boot by swinging away from the vehicle.

REAR BARS:

Just like a front bar replacement, the rear bar replacements not only make a huge difference in how your vehicle looks, but also improve the protection of the vehicle.

Front bars can be colour coded to match the paint of the vehicle.

TOWBALL CUTOUT:

A custom cut-out on the rear bar to keep that OEM look with a tow-bar.

SUSPENSION

Whether your suspension needs are for looks, practicality or even to obtain a GVM upgrade, we have several solutions to tick all the boxes from some of the leading brands in the industry.

ROOF RACKS

Roof racks play a big role in not only styling but also utility. Whether you don't have space inside your car, or you would rather not clutter your cargo area, a roof rack will provide you with a space-saving alternative for carrying cargo and equipment.

Roof racks also give you the ability to mount rooftop tents, awnings, surfboards, bluetooth speakers, LED Bars, and plenty more to your vehicle!

EXTERIOR ACCESSORIES

SNORKEL & AIRBOX:

Our Vogue snorkel is designed to be stylish & functional, while having the ability to work with aftermarket airboxes as well as the factory airbox.

SIDE STEPS:

Side steps are your way in and out of your vehicle so we make sure we fit a variety of side steps to fit your build!

AERIAL BRACKET:

Our Vogue aerial brackets allows you to mount your UHF aerial to the passenger side mirror.

INTERIOR ACCESSORIES

We can kit the interior out for you with all sorts of accessories, from something as simple as a wireless phone charger to trackers, dash cams, & UHF Radio.

TRACKERS: Trackers give you peace of mind in knowing that your vehicle is secure at all times without having to worry about theft.

UHF: If you are going on adventures with your mates, then you need to be able to communicate with them! UHF radio gives you that ability.

DASHCAMS: In the case of an accident, a dashcam will provide you with video evidence that can be used for insurance purposes.

ELECTRICAL ACCESSORIES

We offer and install a full range of electrical accessories from head-units, electronic side steps, multimedia sound systems, fridge units to dual battery systems and everything else in-between.

LIGHTING

If you are taking your Landcruiser for a camping trip then having reliable lighting that you can trust is important in hard to see situations.

Spotlights, LED light bars, headlights, taillights, reverse lights, fog lights, you name it, we modify & install it!

We also make custom reverse & fog lights for the rear of your vehicle!

EXHAUSTS & TUNING

EXHAUSTS

Turbo-back handcrafted 304/409 grade stainless steel options:

- Dual rear system with quad 3.5" tips
- Single system 4" tip
- Magnaflow muffler
- V-band for easy fitting
- Varex bi-modal valve (2007+)

TUNING

Whether you have installed a new exhaust system or are just after better performance or better fuel economy then tuning your vehicle is a must!

LEATHER RETRIM

We also specialise in interior transformations, we can offer a range of leather in various colours and grains along with customised stitching and bolsterring to your taste.

POMPONAZZI PROTECTION

Pomponazzi paint protection involves our flagship product, 880XX, which is an all in one solution that has the ability to protect your paint, plastics, wheels, rubbers & glass. Its unique formula adds a thick coating of real quartz crystal which enhances the natural colours & sheen of your paintwork whilst giving it a sleek feel that repels water & general day-to-day grime from sticking.

TU UNDERBODY COATING:

A thick coating, perfect for surfaces that are under extreme conditions. It adds great protection around chassis & other components on vehicles & provides a barrier against high traffic areas from high levels of salt, UV and air.

Crystal Coating & Brightener
Pomponazzi®

TINTING & CHROME DELETE

FULL BLACKOUT:

If you want to give your vehicle a stealthy appearance look no further, we've got you covered with our tinting and chrome delete package!

TINTING:

When it comes to tinting we have a variety of options such as: Headlights, taillights, indicators, reverse/fog lights & windows.

CHROME DELETE:

We take all the chrome pieces off your vehicle and paint them black giving you that sought after murdered-out black look!
