

CONSTRUCTION

KitchenBOXY™ is built with durable and weather-resistant materials such as galvanized steel sheet and HPL laminate to withstand demanding outdoor conditions. The outdoor kitchen includes a range of kitchen appliances suitable for outdoor use, such as a built-in grill and fridge. Storage cabinets are built into the design to keep kitchen utensils, dishes and other essentials organized and protected. A sink with running water allows you to easily wash your hands, kitchen utensils and dishes.

2 installation variants:

- island (360° access, covered back side)
- wall-mounted (270° access, exposed back, possibility, but not necessity, of mounting to the wall)

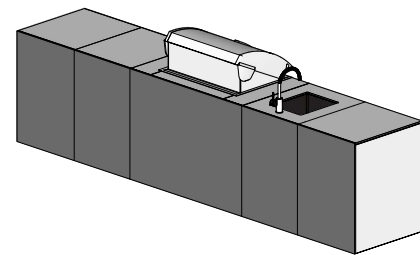

Materials 100% resistant to weather conditions:

- body and fronts: Powder-coated galvanized steel
- tabletop: compact HPL 12 mm tabletop for outdoor use

The Outdoor Kitchen includes*:

1. Open cabinet
2. Cabinet with sink and tap
3. Cabinet with built-in refrigerator
4. Cabinet with built-in grill
5. Cabinet with shelf

*All components can be ordered separately as a customized set.

Island covered back side.
