GALLERY**
CURATED CONTEMPORARY ART

10a Turua Street, St. Heliers  @turuagallery www.turuagallery.co.nz

“Luminous” is Kylie’s first solo show with Turua Gallery and promises to be exactly that. Kylie’s passion and obsession for the coastal landscape can be seen in many forms, as she finds herself drawn to the exploration of different angles and subtle variations in colour, light and form. Kylie’s predominate focus with Luminous has been the islands off the New Zealand East Coast that are special to so many of us such as ‘The Hen and Chicken Islands’, ‘Browns Island’ and Alderman Islands.

Further works in the show delve into a more personal corner of Kylie’s life. Reflecting on the family farm where she grew up, and which has recently been sold on, Kylie has been able to pay homage to these special lands with atmospheric works evoking a sense of nostalgia.

Kylie also specialises in lithographic prints, and her latest collection seen in Luminous are a stunning celebration of the everchanging Muriwai skyline, where she currently resides. Having the daily inspiration of the wild beauty of Muriwai has motivated Kylie to express the incredible hues of this coast.

Artist talk. 7th May 1-2pm. All Welcome

Kylie will also be joining us for an artist talk on Saturday 7th May at 1pm where she will share the process of her lithographs, the oldest form of printmaking along with a bit about her life as a painter and print maker
