Bean Rock NZ532
Handpainted silkscreen print on marine chart. Paper boat in glass case
180mm h x 140mm w X 600mm l
\$1600

With my 'human landform' paintings I am placing human figures, presented as islands, on a marine chart alongside the familiar islands of the Hauraki Gulf - our much loved Rangitoto, Browns Island, Waiheke- to convey a sense of place and the interconnectedness of things (something this year has made us very aware of, I think). We are an integral part of nature, our environment, the map. A shifted world view, to navigate a new and positive way forward.
