SOLID COLORS

1. Both the product and its packaging are NOT WATERPROOF. Please store the product & packaging in inside areas sheltered from the climate elements.

2. The storage place must meet the following conditions:

Temperature between
 15-25°C (59-77°F)

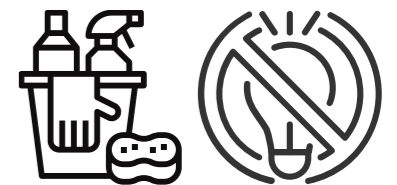

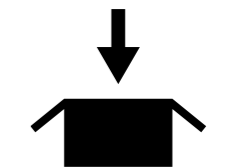

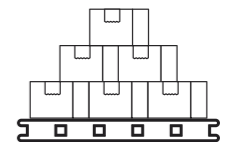

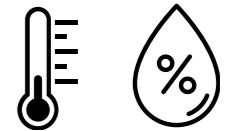

Humidity between
 50-75%

3. Place the master box over a pallet or similar object that avoids direct contact between the box and the floor.

4. If the small boxes are not going to be placed in display, please keep them inside the master boxes. Our master boxes are designed to protect the product from light, humidity and to preserve the conditions outlined in point (2).

5. Please take into consideration the following if you are going to put the small boxes in display. Do not clean the boxes or the area with strong products that might contain alcohol, ammonia, peroxide, chlorine, etc. Do not place the small boxes near or directly under artificial light sources (be especially careful with the acetate side of the box).

6. If you are in a dusty environment maintain the boxes closed.
