

Switch type H Ø40

The Israeli Switch Type H Ø40 is engineered for precise, flush installation, delivering a clean and seamless look. It complies with the Israeli standard, offering reliable control for various electrical circuits.

Featuring high-quality electrical contacts for long-lasting durability, the switch is built from fire-resistant materials to ensure safety. Its modular design enables easy integration into different wall surfaces, including plaster, stone, and wood, providing both functionality and aesthetic appeal.
