

3-D Village Card Template

Tips & Tricks

Cut hill strips and then cut curves in them with either Master Layouts 6 or with crafting scissors. Cut two at a time and glue together for extra strength.

Attached buildings and trees the way they are shown in this template. Note that some are in front of the hills and some are behind the hills. Attached buildings and trees with glue.

Create a frame using Master Layouts 4 and Master Layouts 5 or any dies you have in your collection.

Place foam tape, foam squares or shaker strips in between each of the hills to create depth.

Use ink blending, vellum, Poly-Glaze sheets or anything you want as a background behind the village.

Adhere your entire shadow box onto a card base and add your greeting.

*Dies sets used:

Master Layouts 4, Master Layouts 5, Master Layouts 6, Winter Wonderland
