DO NOT TELESCOPE POLE
DO NOT Install or Fly Flags in wind OVER 20 mph

10' & 12' Sail Adverflag® - Install Instructions

MATERIALS

To begin, remove all parts from the box and lay them out. You should have the following:

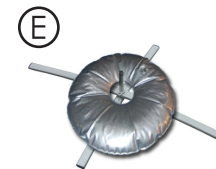

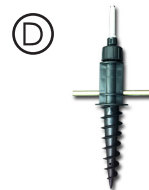

- A. Stackable Pole Sections
- B. Flag Material
- C. Hooked Bungee

Hardware Options

EITHER

- D. Ground Screw or
- E. Crossbase Stand & Weight Bag

ASSEMBLY INSTRUCTIONS

STEP 1. Please remove all parts from boxes & separate pieces. Please reference **STEP 3** for either hard surface or ground install instructions.

YOU WILL NEED:

- Stackable Poles
- Hooked Bungee
- Flag Material

STEP 2. Assemble pole sections by placing smaller pole ends in to larger pole ends. Please see picture example below.

NOTE: This is a STACKABLE pole. This is NOT a telescoping pole.

STEP 3. ARE YOU INSTALLING ON A HARD SURFACE? OR GROUND?

Please reference the correct information below based on your specific flag materials.

LANDSCAPE INSTALL.

- You will need:
- Ground Screw

With ground screw tip touching the ground & making sure unit is straight, turn the ground screw clockwise until the screw is firmly inserted into the ground.

HARD SURFACE INSTALL

- You will need:
- Crossbase Stand
 - Water / Weight Bag
 - *filled with 3 gallons of water or 25lbs of pea gravel (fill not included).

Position the arms of the base to create an X. Please the filled bag on top.

STEP 4. Slide the pole into the sleeve on the flag & firmly hold. The hooked bungee will attach the flag to the tab on your base hardware! **NOTE:** make sure the tip of the pole is fully in to the *strengthened* top of the pole sleeve.

STEP 5. FINAL STEP!

See below for final step for either a *LANDSCAPE* or *HARD SURFACE INSTALL*.

LANDSCAPE INSTALL

While holding firmly on the pole, place the bottom end of the pole on the swivel top of the ground screw. Hook the bungee onto the tab on the ground screw.

HARD SURFACE INSTALL

Align the 2 tabs at the base of the stand. While holding firmly the pole and flag securely, pull the bungee down and through BOTH tabs on the stand to ensure stability. **NOTE:** make sure the water / weight bag is installed per **Step 3** PRIOR to installing on the flag pole.

Admire your work :)
