The Clik-Clik™ hanging system allows for signs to be quickly & safely suspended without the use of a ladder or lift.

Patented LoopLine, makes prep fast, displays are always hung level, and sign change out is a breeze! Since the Clik-Clik™ system uses powerful ceiling magnets & extension poles instead of ladders, suspension is fast & the risk of falling is eliminated.

With the greatest flexibility in positioning, and easiest take-down of any hanging system, Clik-Clik™ is the ideal solution for a drop ceiling, industrial girder ceiling, or wherever aircraft cables have been hung for a specific signage location.

*Interested in custom MagMovers, LoopLine lengths or store Packages?
No problem! Let us know your needs and we will customize a kit for you.*

CLIKMAGNETS

ClikMagnets are the heart of the Clik-Clik™ System. These neodymium magnets with rings "klik" to any metal that contains iron.

Mini ClikMagnets

These are perfect for use with lightweight dangles!
- Hold up to 3lbs per magnet
- 50 / per bag

Regular ClikMagnets

These are perfect for attaching to the T-bars of most suspended ceilings and girders of industrial ceilings!
- Hold up to 5lbs per magnet
- 20 / per bag

Super ClikMagnets

These are perfect for attaching to the T-bars of most suspended ceilings and girders of industrial ceilings!
- Hold up to 10lbs per magnet
- 10 / per bag

INSTALLATION POLES

Extension poles are used to extend the reach of a person. Combined with a MagMover, you hang display items & your feet remain on the ground!

MagPole

An extension pole with the standard acme thread. Push bottom operated for easy use!
- The pole is 5'8" and extends to 18'
- 1 / per bag

Monster MagPole

An extension pole with the standard acme thread. Push bottom operated for easy use!
- The pole is 6'8" and extends to 23'
- 1 / per bag

One Button Pole

An extension pole with the standard acme thread. Push bottom operated for easy use!
- The pole is 4'6" and extends to 8'
- 1 / per bag

MagPole Mini

An extension pole with the standard acme thread. Push bottom operated for easy use!
- The pole is 3'11" and extends to 12'
- 1 / per bag

FLATHAT SYSTEM

Need a Tall Ceiling Solution? No problem! With our FlatHat & Round ClikMagnets, we have you covered. Ideal for ceilings higher than 28'.

FlatHats

Designed to be paired with one of our Round ClikMagnets. The bell shape guides the Round ClikMagnet to a full connection.
- Weight allowance depends on the Round ClikMagnet used
- 20 / per bag

Round ClikMagnet - Blue

Designed to be paired with one of our FlatHats. The bell shape FlatHat helps guide the Round ClikMagnet to a full connection.
- Hold up to 10lbs per magnet
- 10 / per bag

Round ClikMagnet - Red

Designed to be paired with one of our FlatHats. The bell shape FlatHat helps guide the Round ClikMagnet to a full connection.
- Hold up to 20lbs per magnet
- 10 / per bag

MAGMOVERS

MagMovers are used with an Installation Pole to lift ClikMagnets & signage to metal on the ceiling AND to safely retrieve them - while standing on the floor!

24" Dual MagMover

Has two 'posts' spaced 24" apart and is used to hold up two ClikMagnets. Ideal for items that have 2 attachment points 24" apart!
- 1 / per bag

6" Dual MagMover

Has two 'posts' spaced 6" apart and is used to hold up two ClikMagnets. Ideal for items that have 2 attachment points.
- 1 / per bag

Single MagMover

This inexpensive option has one 'post' and is used to lift 1 ClikMagnet.
It is ideal for items with only one attachment point.
- 1 / per bag

Ask us about our Sliding MagMover and Multi MagMover!

LOOPLINE

LoopLine is made of continuous two inch loops. Use two lengths with the same number of loops and your item will ALWAYS be level!

LoopLine - 328 FT

Durable connecting cord infused with UV inhibitor. Tests to 25lbs tensile strength.
- Available in Clear, Black & White
- 1 / per

LoopLine - 82 FT

Durable connecting cord infused with UV inhibitor. Tests to 25lbs tensile strength.
- Available in Clear, Black & White
- 1 / per

LoopLine Light - 82ft, 328 FT and 508 FT

Durable connecting cord infused with UV inhibitor. Tests to 5lbs tensile strength.
- Available in White
- 1 / per
