Muuna

Design: Massimo Costaglia & Giulio Mazzanti (IT)

A simple and elegant chair with an integrated automatic mechanism, the Muuna work-chair fits perfectly into any interior setting. When designing this chair, we paid close attention to greater environmental sustainability. Each part of the chair is recyclable and easy to disassemble.

Design: **Massimo Costaglia & Giulio Mazzanti (IT)**

Massimo Costaglia and Giulio Mazzanti are an inherent part of Massimo Costaglia Design Group. Giulio's graphic design combined with Massimo's technical solutions gives products a unique design and qualities.

# Product overview

MU 3101.15

MU 3101.04

**Base types and colours**

● Black plastic      ○ White plastic

● Polished aluminium

# Easy to adjust

Height-adjustable backrest

Seat height adjustment

Self-adjustable backrest counter-pressure

Step into your home office, take a seat and let the integrated SELF mechanism set everything up for you. You can start working or watch another episode of your favourite TV show. That's how simple it is.

# Ecology

Does not contain: PVC, chromium (VI), ozone depleters, halogenated flame retardants, phthalate plasticizers.

## Recyclability

# Armrests

For easier maintenance, optional padding of the upper part of armrests in washable Silvertex imitation leather available.

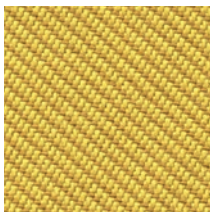

# Oceanic

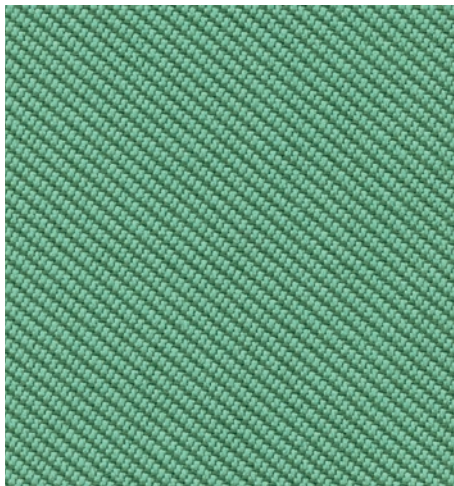

A product of today with a forward looking perspective. Environmentally-friendly Oceanic fabric is made from recycled plastic waste that currently pollutes our seas and oceans. Each meter of fabric contains 26 plastic bottles. Great option for everyone who cares about the future of our planet.

## Composition

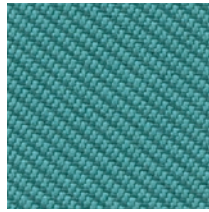

100% post-consumer recycled polyester, including 50% SEAQUAL yarn
