COSMY THE BOT ULTRA CLEAN STYLE

Cosmy opens the path to a whole new world, where efficiency meets style and elegance, where size gives way to precision and intelligence.

Responsive and intuitive

Cosmy the Bot is intuitive and easy to use. At the touch of a button it gets to work. Ergonomic and clever, just as you like it.

Beautifully made and elegant

Although Cosmy the Bot is very small, its ultra-modern design allows it to clean faster and more efficiently while consuming less energy. Cosmy the Bot: super cute, but high performance!

Practical and cleverly designed

Cosmy is simple, clean and pleasant to use. An indicator light warns you when the filter is full and needs to be emptied. At the touch of a button, the filter is freed and can be pulled out from above and cleaned, all without getting your hands dirty. Well done Cosmy!

Double filtration

200/250 Only

Cosmy the Bot features two filters, one fitted into the other. This dual filtration system traps even the tiniest particles and leaves the water crystal clear. Cosmy, twice as efficient!

Feather weight!

Cosmy the Bot is half as heavy as most conventional robotic cleaners. Its rapid drain system makes it wonderfully easy to remove from the pool; good news for your back!

Surefooted on every type of surface

With its on-board technology, Cosmy clings to even the steepest slopes, whatever the waterproofing finish. Cosmy navigates with ease and adapts to every configuration. Its optimized cleaning path ensures full coverage, irrespective of the shape of the pool.

FREEDOM TO CHANGE FREEDOM TO CREATE!

Clip – Unclip – Reclip!

Cosmy is fully customizable: with 8 colors to choose from, its cover and sides can be customized in moments.

On a whim, you can coordinate your robotic cleaner with the color scheme of your pool, and sunbeds. You prefer to match it to your bathing suit or the color of your liner? That works too!

PLANETARY GEAR TECHNOLOGY

Cosmy robots are equipped with two stage planetary gear technology, a drive system that offers greater efficiency and better precision; combined with two drive motors and a powerful pump, Cosmy is one of the most reliable robotic cleaners on the market.

This system is the ideal solution for fast, optimized travel, unmatched cleaning and unrivalled reliability.

ENERGY EFFICIENT

With their rapid and logical travel mode and powerful suction, Cosmy robotic cleaners work fast. Cleaning cycles are short, consume less energy, and yield a flawless result.
