# SEVEN BROTHERS

BREWING CO.

## OUR STORY

· OUR STORY · OUR STORY · OUR STORY ·

### **Our dad was a huge inspiration to us and played a massive part in our passion for brewing.**

He brewed ginger beer in our basement and as time went on he taught some of his sons (us!) how to brew. We carried this on through the coming years, making our own beers for family parties.

After a work trip to Oslo, and becoming inspired by their craft beer scene, we decided to get together and create something special - our own brewery!

We began to create our own brews and immediately educate ourselves in all things craft beer. We took the basic home-brew knowledge that had been passed on to us by Dad and stepped things up to try and create the very best in craft beer.

So, in 2014, after a couple of years of successes, failures and learning from other great beer makers, we finally created our very own family of beers that reflect our passion, honesty and hard work.

Fast forward to now and we have an upgraded brewery, our beers nationwide in supermarkets, a large team of staff and numerous beerhouses (with more to come).

Here's to next year, **cheers!**
