Wholesale Information

Thank you for considering GTR Simulator's Wholesale Program. Our goal is to be your comprehensive source for the latest racing simulators. We stand apart not only through our state-of-the-art products but also through our commitment to customer service and technical support as factory-direct authorized warehouse distributors for most high-demand product lines.

GTR Simulator is swiftly gaining popularity and missing it in your game shop means missing potential customers who visit our website searching for our products. Adding GTR Simulators to your product line-up could significantly enhance your sales. Moreover, these simulators also provide an excellent opportunity to upsell related products such as wheels, pedals, games, and consoles.

In order to get your account established, we request the following information:

1. A copy of your Business License
2. A copy of you Sales Tax Permit (Certificate of Resale)
3. A business card
4. A copy of your advertisement or a copy of your telephone directory listing.(please note that we will not process any application until all four documents are received.)

Sold at the following .com retailers:

Unrivaled Stability Meets Customization

Introducing the GTA Revolution racing simulator, the ultimate sim racing cockpit that delivers unparalleled rigidity and stability for the most immersive racing experience. Designed and engineered in the USA, this sim racing cockpit is the most rigid on the market thanks to its thicker-walled aluminum extrusion and heavy-duty brackets. Compatible with major brand steering wheel mounts, the GTA Revolution includes seat slider rails, universal gear shift mount, and over 10 add-on accessories to choose from, including flight simulator expandable options. With three pedal mounting options available, including a pre-drilled pedal plate or extruded aluminum profile, you can customize the setup to your preference.

GTA Kart Elite Racing Simulator

- Aluminum Extrusion
- Lightweight
- Go-Kart Seating Position

Standard Equipment:

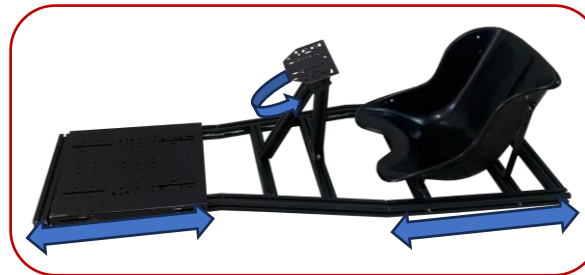

- Lightweight aluminum frame
- Go-Kart style seat
- Adjustable steering wheel plate

Optional Equipment:

- Stand alone monitor stand (single | triple | quad monitor setup)

Specifications:

- Length: 57 inches
- Steering Height: 25 inches
- Total Height: 35 inches
- Width: 26 inches
- Gross Weight: 26 KG
- Frame Material: Aluminum
- Seat Material: Plastic

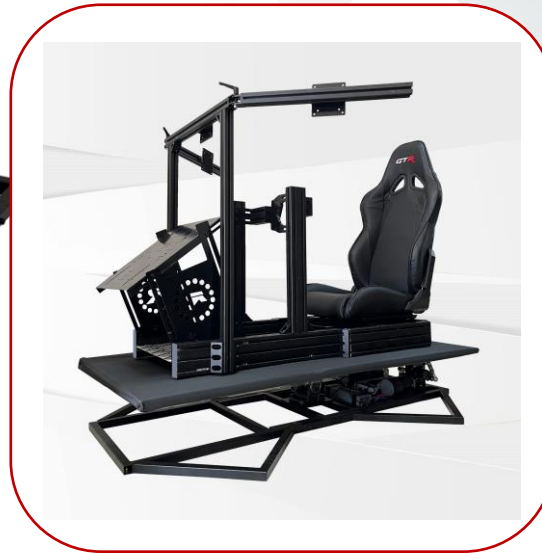

- Adjustable pedal distance
- Adjustable seat distance
- Adjustable steering angle

High-End Racing at Your Fingertips

Experience the thrill of professional racing from the comfort of your own home with the GTA Kart Elite racing simulator. With its unrivaled realism and customization options, this simulator is the perfect cockpit for professional racers and motorsport enthusiasts who is looking to take their driving skills to the next level. With its adjustable pedals and steering deck positions, this simulator is designed to provide a fully customizable racing experience that can be tailored to fit any driver's needs. The GTA Kart Elite racing cockpit is well compatible with direct drive steering systems and high-end pedal setups by rigid construction, allowing for the most realistic and responsive driving experience possible. The modular cockpit design also means that drivers can customize their setup with a wide range of accessories, making the possibilities virtually endless.

Motion Platform V2

- 2DOF Motion Sim
- Racing Cockpit Upgradable
- Easy to Setup

Specifications:

- Length: 62 in
- Total Height: 12 in
- Width: 30 in
- Frame Material: Alloy Steel
- DC Motors rated at 12V 20A 250W
- Max capacity: 600 lbs.

Compatibility:

GTA, GTA-F, GTS-F, GTA-Pro, CRJ
GTA Revolution, GTA Kart Elite

Easy upgrade the racing cockpit to
motion simulator

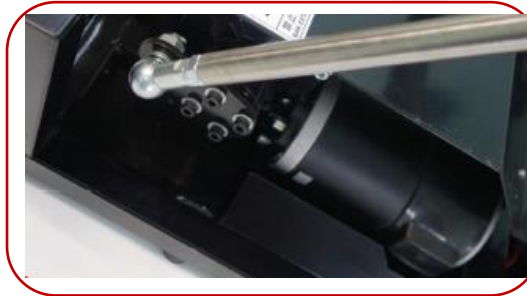

A Driving Experience Unlike Any Other

Introducing the Motion Platform V2 - your gateway to exhilarating racing and flight simulations without burning a hole in your wallet. We understand that every piece of gear matters in this thrilling hobby, and costs can pile up. That's why we've engineered an all-encompassing solution designed to give you the most immersive experience possible, all within your budget. The Motion Platform V2 is more than just a motion simulator; it's your ticket to the cockpit of a racecar or the pilot's seat of an aircraft. Offering two degrees of freedom (2DOF), it faithfully replicates the sensations of pitch and roll, immersing you in the heart of the action. Our inclusive package provides you with a complete simulation experience, unlike others that might offer only a piece of the action and charge more for essential features.

GTM Motion Simulator

- 2DOF Motion Sim
- Racing Cockpit Upgradable
- Easy to Setup

Two brushless motors create outstanding in-game motion movement

Specifications:

- Length: 43-58 in
- Steering Height: 22-24 in
- Monitor Height: 46-53 in
- Total Height: 43 in
- Width: 23 in
- Gross Weight: 80 KG
- Frame Material: Alloy Steel
- Seat Material: Synthetic leather
- Monitor Mount: VESA Standard Compliant (MAX 4x39" or 1x65")

Motion Always In Action

Discover the exhilarating world of racing with the GTM Motion Simulator, your gateway to high-octane thrill without splurging. We know how quickly costs can escalate in this passionate hobby, which is why the GTM motion simulator is designed as an all-in-one solution. Offering a comprehensive cockpit experience with a precision-engineered seat, robust frame, essential mounts for sim racing, and a cutting-edge motion unit delivering two degrees of freedom (2DOF) for authentic pitch and roll simulations, the GTM is ready to redefine your PC gaming experience. Harnessing real-time game data for immersive realism, the GTM doesn't just anticipate movement through control inputs—it transports you directly onto the racetrack!

GTA Compact Foldable Simulator

- Foldable Canvas Chair Design
- Lightweight
- Easy Storage

Optional Equipment:

- Stand alone monitor stand (single to quad monitor setup)

Pre-drilled for hard mounting electronics including wheels, gear shifters, and pedals

The GTA Compact unique foldable design allows for easy portability and storage without sacrificing rigidity or stability, ensuring an exhilarating racing experience wherever you go

Specifications:

- Length: 50 inches
- Steering Height: 35 inches
- Total Height: 45 inches
- Width: 23 inches
- Gross Weight: 20 KG
- Frame Material: Alloy Steel
- Seat Material: Canvas

Standard Equipment:

- Foldable canvas chair
- Adjustable wheel mount
- Adjustable pedal mount
- Shifter mount
(Optional Oversize shifter & handbrake mount)

Space-Saving Performance Unleashed

The GTA Compact racing simulator is the perfect choice for those who want to experience the thrill of racing but have limited space. With its foldable design and compatibility with all major wheels and pedals, the GTA Compact is the perfect solution for anyone who wants to experience the excitement of sim racing without compromising on space or convenience. The Steering wheel Hubs provide rigidity and durability, withstanding up to 150kg of force, and allow for quick setup and easy folding for storage. Supporting wheels with clamping mounting options, the gear shifter support can be installed on either the left or right-hand side. The unique design allows for easy storage and portability, even with electronics installed, making it easy for users to take their racing setup from room-to-room when needed.

GTA-Pro Model

- Designed to accommodate all ages
- Stable & Sturdy & Adjustable

Adjustable steering angle, height, and distance

Standard Equipment:

- Adjustable GTA-Pro frame base
- Adjustable steering wheel mount
- Adjustable pedal mount
- Shifter mount

Optional Equipment:

- Side wheel mount
- Front wheel mount
- Height adjustable pedal floor mount
- Height adjustable inverse mount
- Integrated monitor stand
- Stand alone monitor stand (single to quad monitor setup)
- Oversize shifter & handbrake mount
- Keyboard mouse tray

Specifications:

- Length: 43-58 in
- Steering Height: 22-24 in
- Monitor Height: 46-53 in
- Total Height: 43 in
- Width: 23 in
- Gross Weight: 38 KG
- Frame Material: Alloy Steel
- Seat Material: Synthetic leather
- Monitor Mount: VESA Standard Compliant (MAX 4x39" or 1x65")

Ultimate In Adjustability

With a vibrant presence in the racing community, GTR Simulator acknowledges and caters to racers of all ages and levels. Presenting the GTR Pro Simulator - a professional-grade gaming cockpit, meticulously designed and thoroughly tested by accomplished racers, custom-made for enthusiasts starting from the tender age of three. From petite pilots to towering track titans, the GTA Pro Simulator effortlessly accommodates drivers ranging from 32 inches to a towering 7 feet in height! It's not just a simulator, it's an evolving gaming centerpiece, ready to grow alongside your budding racer while offering boundless entertainment for the entire family.

Specifications:

- Length: 58 in
- Steering Height: 22-24 in
- Total Height: 43 in
- Width: 23 in
- Gross Weight: 37 KG
- Frame Material: Alloy Steel
- Seat Material: Synthetic leather
- Monitor Mount: VESA Standard Compliant (MAX 4x39" or 1x65")

Innovations Never Stop

Immerse yourself in a harmonious blend of comfort, ergonomic perfection, and performance with the GTS-F sport seat. This sophisticated seat boasts a contemporary design with lateral stitching and tasteful GTR lettering - stylish accents that perfectly complement the racing-derived integrated headrests and deep side bolsters.

The seat's rigid elastokinematics, revised axle geometry, and broader stabilizer bar collectively heighten its agility, producing a stiffer and firmer feel. Equipped with a diamond plate footrest and an adjustable frame, the GTS-F not only enhances your racing thrill but also ensures sustained comfort during extended gaming sessions. Experience the pleasure of luxury and performance in perfect equilibrium with the GTS-F sport seat.

CRJ Flight Simulator

- Easy to Install
- Stylish
- Ergonomically Designed

Compatible with both Yoke system and Hotas flight stick mode

Specifications

- Length: 42-56 in

Standard 2-pedal

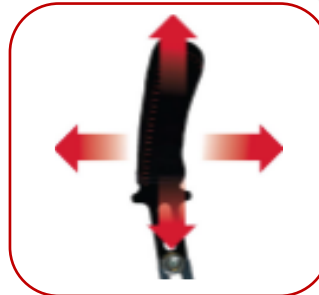

Optional 3-pedal

Ideal Fit for GTR Simulator

Step into the exhilarating world of racing with the V3-Pro Pedals, engineered to emulate the adjustable features typically found in race-prepared coilover suspensions. Tailoring to your personal preferences, these pedals allow for customizable spring force travel. Boasting nine different lateral positions, the pedals' spacing can be tailored to suit your unique racing style. Additionally, their height-adjustability provides the option for both upright or reclined configurations, mimicking the cockpit of professional racers. Beyond this, the pedal frame introduces the sensation of footwell boundaries, creating a more immersive and realistic racing experience. With the V3-Pro Pedals, ergonomic customization goes the extra mile.

RH3 USB Handbrake

- Premium Quality
- Handle Adjustable
- Spring Tension Adjustable

Handle height & direction adjustable

Additional reinforced spring tension adjustable

Elevate Your Gaming Experience

Introducing the GTR Gaming Chair, a revolutionary addition to your gaming arsenal. This highly versatile chair is an innovative blend of technology and comfort, designed to take your gaming experience to unparalleled heights. Outfitted with a comprehensive gaming chair kit, the GTR Gaming Chair provides an unrivaled level of customization. It's ready to seamlessly integrate with our specialized Pista and Speciale racing seats. These optional upgrades allow you to personalize the chair's upper seat part according to your unique preferences, elevating both comfort and style. Experience gaming like never before in the GTR Gaming Chair. With its sturdy build, adaptable design, and exceptional ergonomic support, it's more than just a chair - it's a game-changer. This next-level gaming chair is destined to be a coveted centerpiece in any gaming setup. Step into the future of gaming with the GTR Gaming Chair.

Pista Racing Seat

- Ergonomics
- Aesthetics
- Multi-Color Selections

Level up the stylish and comfortable

Welcome to the new era of racing with the GTR Simulator Pista Racing Seat. Crafted from superior synthetic leather, this seat exudes a unique and high-tech flair with faux carbon fiber fabric on both sides of the seat back and bottom. The robust seat frame, encased in soft, injection-molded foam padding with deep thigh bolsters, ensures you remain firmly seated in the lap of comfort. Each Pista Racing Seat is fully compatible with all GTR Simulator racing cockpit models, offering seamless integration.

Designed with three principal ergonomic support positions - neck, back, and lumbar, the Pista Racing Seat effectively provides unparalleled comfort, enhancing your racing experience like never before.

Speciale Racing Seat

- Ergonomics
- Aesthetics
- Multi-Color Selections

The Stylish and Comfortable seat you deserve

Embrace a seamless integration with the GTR Simulator Racing Seat, meticulously designed for compatibility with all GTR models, existing and future racing cockpits, and motion platforms. Crafted from premium synthetic leather, this seat promises not just quality, but also, perfect for your prolonged racing adventures. Waterproof and easy-to-clean, it ensures practicality is at the forefront. The seat's backrest, equipped with a single adjustor and fitting a double slider, offers racers the flexibility to fine-tune a wide range of angle rotations, making it an ideal choice even for brief respites. Designed for racers who crave to elevate the aesthetics, comfort, and stability of their seats without compromising on functionality, these racing seats are truly a cut above the rest. Built around a robust yet lightweight frame and furnished with high-density shaping foam, the GTR Simulator Racing Seat offers the ultimate blend of comfort, performance, and durability, so you can remain engrossed in your race, locked in, and thoroughly entertained.

- Adjustable monitor mount adaptor
- VESA adaptor
- Floor mat
- Tabletop
- Armrest

Customize Your Own Rig

At GTR Simulator, we're dedicated to providing everything necessary for an authentic sim racing experience, but we refuse to deliver a one-size-fits-all solution. We recognize that every driver is unique, coming with distinct shapes, sizes, and personal gaming styles. With this understanding, we offer a variety of accessories to customize your sim racing cockpit, eliminating the need for any personal modifications. Our goal is to enhance your comfort and adapt to your gaming style. Our platforms are modular and designed for easy upgrades. With just a few simple adjustments, you can upgrade from no monitor mount to a single monitor mount, or from a small triple monitor display to a larger triple or quad monitor setup. We acknowledge that maintaining a budget is crucial in this hobby. Therefore, we offer our components as modular upgrades, allowing you to expand at your own pace, without any pressure. At GTR Simulator, we're all about meeting your unique needs and maximizing your sim racing experience.
