

WHEEL BEARING SET XXL BASIC

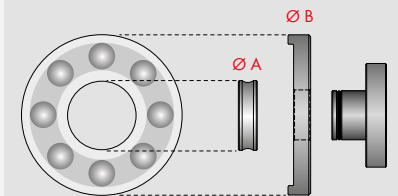

FROM Ø85.5MM
TO Ø99 MM

- Set for the disassembly and assembly of Ø 85 mm wheel bearings.
- For installation of the wheel hub directly on the vehicle or with the help of a workshop press.
- It is an addition to the **GO015** wheel bearing kit and is designed to house the components of both sets. (also available as a complete set **GO018** incl. chuck).
- **For installation of the wheel hub directly on the vehicle or with the help of a workshop press:**
 1. **Bearing installation** = pressure on the bearing outer ring.
 2. **Hub installation** = pressure on the bearing inner ring.

3-part pressure element.

This allows an exact fit to the inner bearing - Ø A and outer - Ø B!
