

TWIN WHEEL SEPARATOR SET FOR HEAVY VEHICLES

- Allows the separation and disassembly of twin wheels in heavy vehicles.
- This set offers a simple and effective solution to help you in the disassembly stages. The two rims come apart using special both the supports and the spindle (fixed impact screwdriver).
- Usually it is also possible to loosen the rear rim by placing it on the brake drum.
- Also ideal as a tool to take on board or for roadside assistance.
- This set also includes two wheel-centering pins that protect the wheel's bolts, facilitate wheel assembly and keep the brake's drum in place, in the case of drum brakes.

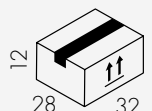

UNIVERSAL

Example of application

Components
