STANDARD ACCESSORIES

4 Ice molds with lid

To explore endless ice flavours.

1) Freeze: Fill any of the 4 ice molds with a base of choice such as water.

Freeze for 12-24 hours.

Position a pre-frozen block of plain ice or flavoured liquid inside the attachment.

Dishwasher-safe.

2 Blades: fine (snow) and coarse (hand-shaved)

2) Shave: Remove ice from mold and allow to 'temper*'.
Choose a blade, select the coarseness, and load the ice 'puck' (should

be ready to use in 10 minutes or less) into the ice cup of the shave ice attachment.

Dishwasher-safe.

Shave ice attachment

3) Release top lever and shave/create.

To customize any creation with an array of flavourful syrups, fruits and other tasty toppings.

Storage box

To easily store and keep clean all accessories in one and the same box.

* Tempering: means allowing the ice to adjust at room temperature until it develops a glossy, wet look and is clear from all sides. Tempering is an important step for producing the lightest and fluffiest shave ice.
