The next generation of injection comfort

Your natural in clinic, pre & post treatment infection control solution

Use pre & post procedure to remove dirt, excess oil & unclog pores

Gentle alternative to traditional chlorhexidine in the aesthetic environment

Provides strong antimicrobial protection

Promotes skin barrier repair and wound healing

Non-toxic & non allergenic

Safe & effective

Cost effective for every treatment

Developed and trialled in partnership with leading cosmetic medicine clinicians for use in clinic. Formulated to harness the therapeutic power of the New Zealand East Cape Manuka oil. 3K+ Skin Prep is designed to support clinical treatments and enhance patient outcomes to reduce infection risk, encourage healing and recovery whilst promoting optimum skin health. Your go to Skin Prep Pre & Post treatment e.g. Injectables, PDO Threads, Skin Needling (the perfect slip) etc.

Clinical Results

Supported by independent scientific data

- ✓ PASSED - Bactericidal and Virucidal (Eurofins AA105077)
- ✓ PASSED - Non-toxic and non-allergenic (Eurofins AAL60244)
- ✓ PASSED - TGA Disinfectant Test (Eurofins AA056506)

Pre & Post Procedure Natural Antiseptic Cleanser

- 3K+ Skin Prep leaves residual bio-actives on the skin ensuring procedural inoculation with every injection.
- 3K+ Skin Prep is formulated to be absorbed into the skin and works as a mini lactic peel.
- Healing oils of 3K+ Skin Prep are an added benefit to your patients' skin.
- One bottle of 3K+ Skin Prep ensures coverage for approximately 120 patients.

In Clinic - User Instructions:

1. Apply one pump of 3K+ Skin Prep to a gloved finger and distribute sparingly to the entire area.
2. Do not rinse or wipe off. Leave 3K+ Skin Prep on the area during treatment ensuring procedural inoculation with every injection.
3. Post treatment apply 3K+ sparingly to cleanse, protect and heal treated areas and wipe.

Top Tip: 3K+ Skin Prep to slick back and prevent hair from entering your entry openings when doing Lift Threads treatments.

Consumer:

Use to maintain optimal moisture levels whilst promoting a healthier skin barrier. Manuka Rx 3K+ Skin Prep works well against **acne breakouts**. It's advanced formula, enriched with Manuka Rx 3k, actively works to combat the underlying causes of acne, such as bacteria and excess oil production. Regular use creates a protective barrier, preventing the formation of new blemishes and promoting clearer skin.

Consumer - User Instructions:

1. Apply 1 Pump of 3K+ to dry skin and distribute well.
2. Wait for 2-3 minutes and rinse off with lukewarm water/damp cloth.

Caution: For external use only. This is a practitioner product. 3K+ is formulated as a deep cleanse.
