

## How do I measure for apparel & clothes?

Measure the length of your dog's back from the base of the neck to the tail. This is the measurement to use for selecting the correct size of clothes.

If your dog is in between sizes and normal weight you are normally better to choose the smaller size otherwise it may be too baggy, especially with pyjamas and coats.

E.g. If your dog measures 42cm then still go for 40cm rather than 45cm size.

## DOG CLOTHING SIZING CHART

SIZE	BODY LENGTH	BREEDS
