1. DEVICE ACTIVATION AND CHARGING

A) How to charge it

1. Built-in USB Charger. No additional charger needed.
2. Pull out the band (the side without wristband buckle, both sides can be pulled out).
3. Plug the device (the side with chip) directly into any USB port, Laptop or an Adaptor to charge the battery.

B) Activate the Device

Before use, please connect the battery charger to charge the device for activation. The progress bar will change from empty to full to indicate full activation. After activation, the device will start charging the battery.

C) Battery Indicator

The battery indicator is displayed on the home screen of the device. When the battery of the device is lower than 10%, all functions are closed and only lower battery icon will show to remind you to charge the battery.

When using this band for the first time, please charge 2-3 hours prior to use. When charging, the battery symbol will appear and the band will automatically switch on, time and date will automatically update when the phone is synced and connected.

Notice:

1. Press the front touch button, the band screen will lit up, and it will enter the clock interface by default
2. Open 'Lift wrist to light on screen' under app setting, the screen would lit up when the wrist is turned over.

2. PRODUCT QUICK USE

Download and install

You have to download and install the "Everlast GymPal Pro" App from the App store or Google Play store.

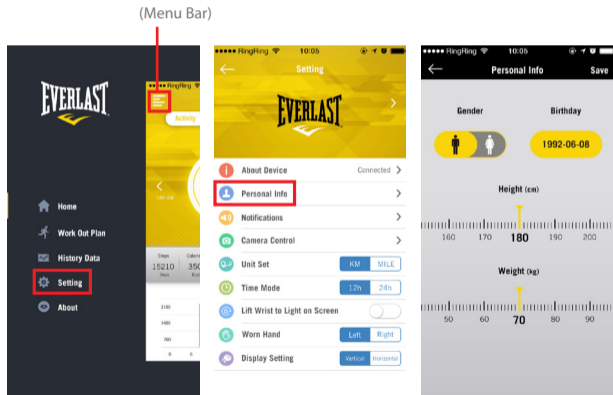

3. BINDING BRACELET

1. Open the Bluetooth on the phone
2. **Open App** > click **"Pair Device"** > **"Searching Device"** > click the **device code** when it is searched > **bind** successfully.
3. After binding, it will show **"Bluetooth Pairing Request"**, click **"Pair"**.

4. PERSONAL DATA SETTINGS

Under Home Screen click on the left top **Menu Bar**, then click **Setting > Personal Info** to enter personal information. This will then personalize information on your band for greater performance data.

5. SYNCHRONOUS DATA

The band automatically synchronizes the data after pairing/connecting with the smart phone or you may hold and pull down the interface to manually synchronize. Data includes steps, calories, distance, date and time. You can check the history data by the menu bar.

6. FUNCTION ICONS

Touch the screen to cycle through each function display.

Set vertical or horizontal display from the APP.

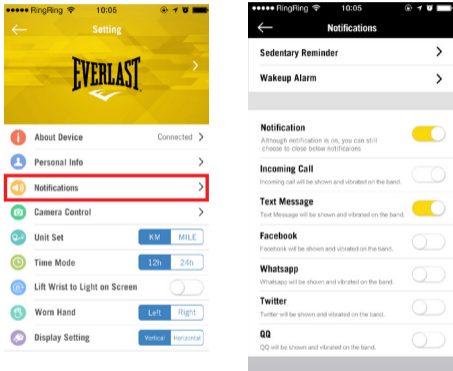

7. SLEEP MONITOR

You need to wear the band during sleeping, and the band will analyze the quality of your sleep according to your nocturnal movements and monitor your entire sleep schedule. You can view this information daily or check the History Data by the menu bar.

8. CALL AND NOTIFICATION REMINDER

8.1 After connecting the band to the smart phone, enter the notification page under setting to turn on the incoming call and message reception, and the band will receive the message, phone call, Facebook messages and/or selected chat apps.

* Android phone - Please accept phone app permission under the **Phone Setting**.

9. SEDENTARY REMINDER

Under the notification page, set the sedentary reminder, the start time and end time. If you are not active within the set time, the band will vibrate to remind you to move.

10.ALARM SETTING

Under the notification screen, select **'Wakeup Alarm'** to set the alarm; the band will vibrate at the preset times. The alarm clock can be set daily, by a day of the week, alarm type, and you can create up to 5 alarm clocks.

11.REMOTE CAMERA CONTROL

Go to **Setting > Camera Control**, turn on the phone camera > then shake the band to take a photo. The screen will display taking photo. Remember to accept the app to access your camera.

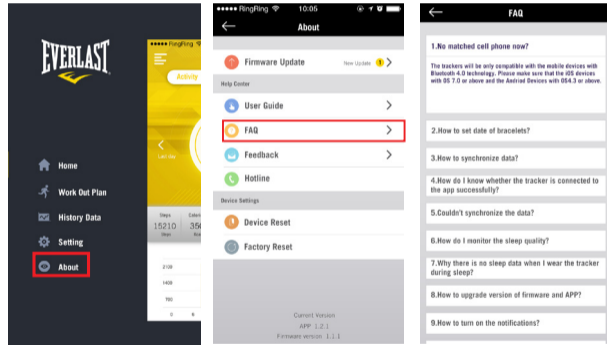

12.SET YOUR GOAL

You can set your goals by selecting **'Work Out Plan'** under homepage, then select **'Setting'** and select your customize workout plan.

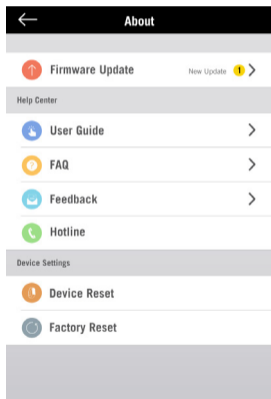

13.EVERLAST GYMPAL PRO FAQ

There are **"FAQ"** under the **About** page, it will answer the most common questions about the application, including setting and using additional functions.

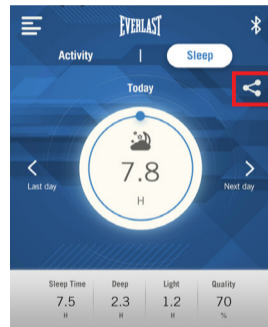

14. FIRMWARE UPDATE

There is a **"Firmware upgrade"** section under the **About** page, which will show the current firmware version and new update for the latest firmware version.

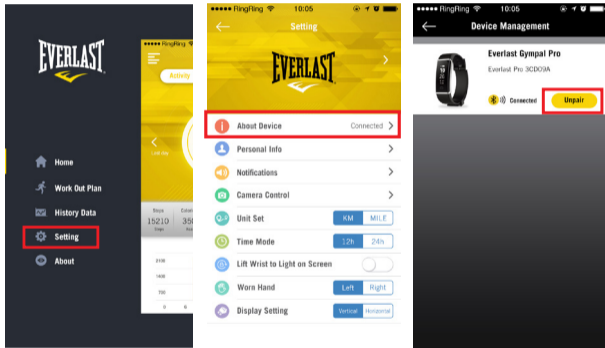

15. SHARING FUNCTION

Click on the Sharing icon to share your information via Facebook, Twitter and Instagram.

16.UNPAIR

If you need to disconnect the band , click **'Setting'** , click **"About Device"** , press **"Unpair"**.
