

coolee™

CL-240

3-IN-1 PORTABLE AIR COOLER

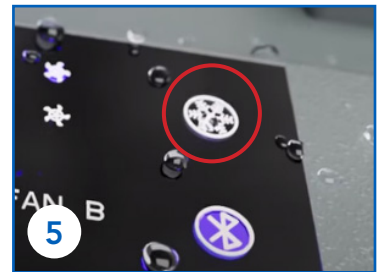

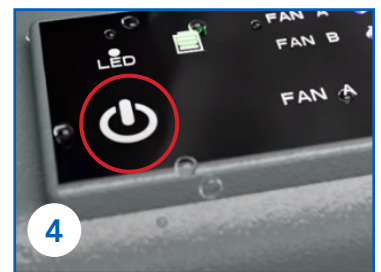

QUICK START GUIDE

Keep everything Cool when you're on the go, with a Portable Coolee that chills both your drinks and surrounding air.

Here are the basics on the Quick Start Guide:

1. Ensure battery is installed.
2. Charge Coolee with cable provided.
3. Fill Coolee inner compartment with 2-3 in. of water and then fill with ice.
4. Touch Power Button for 2-3 seconds.
5. Turn on water pump by pushing the Ice icon.
6. Turn on Fan A and/or Fan B. Push multiple times to switch through speeds. Speed 1 or 2 recommended for longer battery life.
7. Push Bluetooth Icon to connect your phone (shows up as CL-240).
8. Push Power Icon to turn everything OFF.

HELPFUL TIP - For even longer cooling, use frozen water bottles or ice packs.
