## Ultimate All-Weather Joint Compound

1

Soak the paving area, pour on the Ultimate joint compound.

2

Brush-in using broom, continue to wet down the Ultimate Joint Sand, fill joints completely.

3

Rinse area, remove excess material. Finish with pointing tool or as desired, Use soft brush to remove excess material.

\* Ultimate Joint Compound coverage will vary depending on joint and product type; Wider joints will reduce coverage.

**(\*) Base type and bedding techniques must be free draining with zero movement base;**

Designs vary such as use of hybrid base; plastic grids and/or foam base materials. Bedding material may consist of hybrid system or open graded material (small coarse aggregate). Adhere to manufactures recommendation, guidelines, and local soil conditions.

**Do not clean with Muriatic Acid / No Limpiar con acido muriatico**

**Under no circumstances should a mechanical compactor be used directly on the slab surface.**

Bajo ninguna circunstancia debera usarse la compactadora mecan/ca directamente sobre la superficie de la piedra.
