

PASGT HELMET

The PASGT is a US military design helmet that is manufactured with state of the art advanced high strength multi-layered Aramid composites. Laminated under heat and pressure, this produces a helmet that offers excellent bullet resistance and minimal deformation.

This helmet offers improved head stability with a 4 point adjustable harness, suede covered chip cup and nape strap. It also features a wider cut design around the ears and collar to reduce interference from other equipment.

PROTECTION LEVEL

The PASGT helmet has a ballistic performance to NIJ 0106.01 level IIIA and HP White 0401.01B Shock absorption against low-velocity impact EN 397.

FRAGMENTATION PROTECTION

Protection against fragments at V50 650 m/sec (2130 f/sec) according to STANAG 2920 (17 gr FSP) and US MIL-Standard 662F.
