

GT-CTB-40A

This LED bulb is a 40-watt replacement for a 300-watt incandescent bulb, helping save you money on your energy bill and lighten your space with a crisp daylight light. The remarkably effective 360-degree angled cone shape with downlight ensures an omnidirectional light spread that covers your 2-car garage, storage area, or large workshop, and compact enough to use in smaller spaces as well.
