CARE AND CLEANING

Your fixture is made from quality materials that will last an extended period of time with proper care - including periodically cleaning the surface of the fixture.

- 1. Use a mild, non-abrasive cleaner. Do not use any solvents or harsh cleaning agents.
- Use a soft, non-abrasive cloth.
- Lightly spray cleaner onto the cloth. Do not spray liquid cleaners directly onto LEDs, power cord, or any part of this product.
- Lightly wipe down fixture with damp cloth. Allow product to dry completely before restoring power and using LED lights

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's warranty and the authority to operate the equipment. Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause interference to radio communications. However, there is no guarantee that interference will or will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures: 1) Reorient or relocate the receiving antenna. 2) Increase the separation between the equipment and receiver. 3) Connect the equipment into an outlet on a different circuit from the receiver. 4) Consult the dealer or an experienced radio/TV technician for help.
