

JMH-VINTAGE

*Please note: your pickups may use wire that is not black or red. This is a graphical representation of how your pickups may look.

COLOR CODE

- | | |
|-------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------|
|  POSITIVE PICKUP |  PRE-SOLDERED |
|  NEGATIVE PICKUP |  NEW SOLDER POINT |
|  NEGATIVE/GROUND | |

INSTALLATION INSTRUCTIONS

Loosen pickguard from guitar and flip pickguard over.

Carefully cut original pickup & ground wires as close to the original solder points as possible. **Retain as much original wire as possible.**

Dismount all original components and mount new harness into pickguard.

Following the diagram, reattach pickups, ground wires and output jack.

Test for functionality and remount pickguard
