

## Fairy Rap Frequency

By Angeline Pompei

Vocabulary Theme: Counting, types of frequencies/waves in life and sciences, relationships, breakup

Verb Ask: I ask, I asked, I'm asking

Verb Get: I got, we got, I get

Focus Words: Numbers 1-99

One

I ask you

is it really done

Two

I ask you

what am I suppose to do?

Three

We were a frequency

Four

I got it,

you closed that door

Five

I'm trying

to get out alive

## Six

It's not an easy fix

Love is a frequency

A wave, a pattern

A consistency

Our love oscillated easily

Our heartbeat

was a harmony

I think about you frequently

(Chorus)

Our heartbeat was one

Now forever done

Hearts beat in two

That's what it's

supposed to do

Hearts beat in two

Heartbreaks a flu

I'm asking you

I'm asking to be with you

--

## Seven

I asked God in heaven

Eight

I'm asking for a break

Nine

I almost lost my mind

Ten

I got to start again

Eleven

Going back to seven

Eight

I'm asking

for a break

For God's sake

Our love was a tidal wave

Two frequencies combined

to make a superwave

Our soundwaves

will never be the same

Supernovas, cosmic dust

I'm dealing with gamma rays

(Chorus)

Our heartbeat was one

Now forever done

Hearts beat in two

That's what it's supposed to do

Hearts beat in two

Heartbreaks a flu

I got a stomach flu

I got to be with you

--

Twelve

I never asked for this hell

Thirteen

I'm asking

can we be evergreen

Fourteen

We got the same genes

Fifteen

I got to get out of quarantine

Sixteen

Now I got low self esteem

Seventeen

I don't want to be seen

Eighteen, nineteen, twenty

Thirty, forty, fifty, sixty.

Seventy, eighty,

ninety, ninety-nine

Now back at eleven

Ask God in heaven

A mathematician, physician

I thought we were magnetic

With less than one amp

of current we were electric

At close proximity, we had a frequency

We had electricity

(Chorus)

Our heartbeat was one

Now forever done

Hearts beat in two

That's what it's supposed to do

Hearts beat in two

Heart break's a flu

I'm asking if we can be

Again a frequency
