a journey through sound

P9

Introducing a reference in portable HIFI speakers

The Escape P9 delivers superior sound quality thanks to five high-quality speakers equipped with an aluminum dust cap, optimized deep polypropylene (PP) cone, linear flat spider and a vented voice coil driven by a powerful magnet. The 20 cm (8-inch) subwoofer features a custom-designed composite fiberglass-reinforced basket to support the oversized magnet. The linear flat spider and vented voice coil ensure deep, powerful and accurate reproduction of the lowest frequencies. Two powerful 24-BIT DSP processors control the digital signal processing and various equalizer algorithms. The built-in audiophile amplifier with an output of 100 Watts RMS and frequency response of 20Hz-20KHz is fully tuned to the 5 speakers. The advanced bass management offers music lovers the ultimate audio sensation.

AVAILABLE IN THREE COLORS

M1 AIR

Upgrade your P9 or HIFI system with the M1 Air streamer

Premium Hi-Fi systems are bought to be enjoyed for years. So a lot of people don't want to part with their devices, even if they are not really up to date in terms of high-resolution wireless audio streaming anymore. That is why we developed the M1 Air streaming DAC. A universal module that can be easily connected to most HI-FI systems and supports 192kHz / 24-bit hi-res audio files. The M1 Air is equipped with Chromecast built-in, AirPlay 2, Roon, Spotify Connect and Bluetooth 5.0. This allows you to easily stream music services such as Spotify, Apple Music, Tidal, Qobuz, airable internet radio or podcasts from a smartphone or other mobile device.

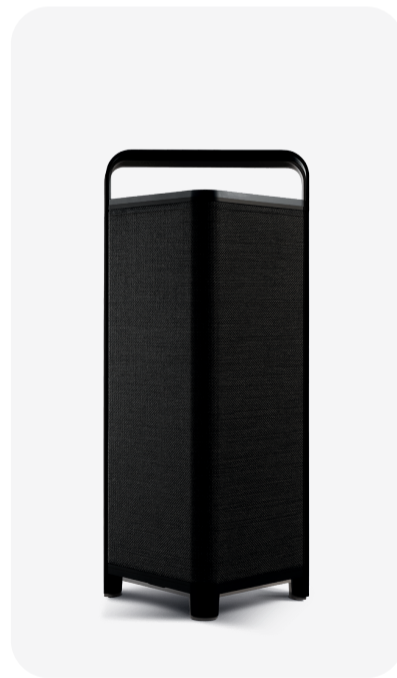

P6 BT

Powerful - Musical - Surprisingly Affordable - 100% Escape

The Escape P6 BT shares many of the unique features of the P9. Made from the finest materials to listen to your favorite music in style. The P6 BT is the perfect balance between design and performance. Enjoy the harmonious interplay between the bass - midrange and treble thanks to the two exclusive and custom-made speaker drivers (same type as the P9) and a subwoofer with diameter of 17cm. (6 1/2 inch) A high-performance digital amplifier of 60 Watts RMS and powerful 24-BIT DSP processor ensure 360° sound reproduction fully in line with our philosophy - the passion for music.

AVAILABLE IN THREE COLORS

P6 AIR

Powerful - Musical - Surprisingly Affordable - 100% Escape

The Escape P6 AIR is based on the P6 BT platform but thanks to AirPlay 2, Chromecast built-in and Roon it offers the possibility to wirelessly stream music via an existing WIFI network to multiple speakers without the limitations of a single brand. Like the P6 BT, this audiophile portable speaker is still most notable for its subtle beauty, discreetly adding style and color to your interior and far beyond.

Escape® - A musical world without wires

Portable audio devices have changed the way we listen to music. Phones and tablets are now our primary source of music. But for audiophiles who are looking for the best possible sound quality without the inconvenience of wires, there are only small carry-on and compact portable speakers available. That's why we developed Escape for you. A series of high-end wireless speakers with stunning performance.

One speaker, infinite possibilities

Escape offers the perfect solution for music lovers looking for a versatile speaker system with high-fidelity sound reproduction. Escape does not fit into any existing product category; it is a category by itself, without boundaries.
