When we developed the first ball in 1894, we didn't follow the competition, we set the standard. We didn't just create the ball, we built a reputation, a legacy. We don't forget where we started, but we plan for the future. We never stop innovating; never stop searching for opportunities to improve, always adapting to meet the changing needs of the player and the game.

For every W and every L, the ball is the constant—something you can always rely on. It holds dreams to something better, an opportunity to escape reality, and it unlocks potential on any stage. No matter the stakes, time, or place we play our best with TFM™.
