

Do you know what makes this book special?
YOU!

So if you don't like a question - change it!

Want to play noughts and crosses in an empty section? Go for it!

And most importantly, if you need help with any of these pages
be sure to ask your grown-up.

Your support is the reason we're here, so please feel free to invite
your friends, parents, extended family (or anyone else you think
would benefit from our resources) to download via our website!

You are welcome to print and use them for your own personal
use, but do not sell. Do not embed our products onto your (or
anyone else's) site.

Please use the proper channels when sharing on social media.

If you would like to collaborate or use our products
professionally please email me: danielle@momentaryco.com

With thanks,

The Momentary Company

How to assemble your mini book

Download and print the pages single sided @ 100% scale. You
can choose to print the cover page on card if you like, but it's not
necessary. ☆In this book "Me" is the little person and "You" is the adult.

Fold the cover page and mini book pages in half along the centre
line, so you can see the printing on the outside. Press hard along
the fold to make a nice sharp crease.

(Optional) Unfold the mini book pages so that the blank sides are
facing you, then apply a small strip of glue along the top and
bottom edges of the blank sides, then fold back in half.

☆A small strip of glue will stop the pages wrinkling

With the mini book pages folded (and glued) together, cut along
the top and side dashed line.

☆Try not to cut all the pages at once, it works best if you trim one page at a time.

Unfold and trim the white border off the cover page. Then open
the green front cover page, so that the blank side is facing you.

Arrange your mini book pages inside the green cover page in the
correct number order. The "Page One" page should be on top.

☆The folded edges of all the mini book pages will be outer edge of the books
pages, so the fold will be on the right side.

Close the green cover page so you can see the front. It should
look like a book now!

Now you can staple the whole book together, along the spine of
the cover page. You might need someone to help hold the pages
in place while you staple.

☆For the most robust mini book, use 3 evenly spaced staples, starting from the
middle of the spine.
