

# TEXTURE-EEZ 3500

MADE WITH **H<sub>2</sub>COOL** TECHNOLOGY  
THE CHILLEST WAY TO KEEP YOUR CONCRETE COOL

## ICT TEXTURE-EEZ 3500

is a spray/brush/roll slip-resistant texture coating for use on concrete surfaces such as pool decks, walkways, driveways, garage floors, patios, porches, stairs and ramps. **Texture-EEZ 3500** is ideal for residential and commercial applications. Now being made with our **H<sub>2</sub>COOL Technology**, **Texture-EEZ 3500** will boast a cooler surface temperature and longer lifespan than ever before!

**Texture-EEZ 3500** is a water-based acrylic, non-cementitious, quartz, slip-resistant texture coating designed for concrete and masonry surfaces. It is a hard, durable, high-strength finish available in 1 & 5 gallon pails and is factory blended to ensure color consistency.

# H<sub>2</sub>COOL

THE CHILLEST WAY  
-TO KEEP YOUR-  
CONCRETE COOL

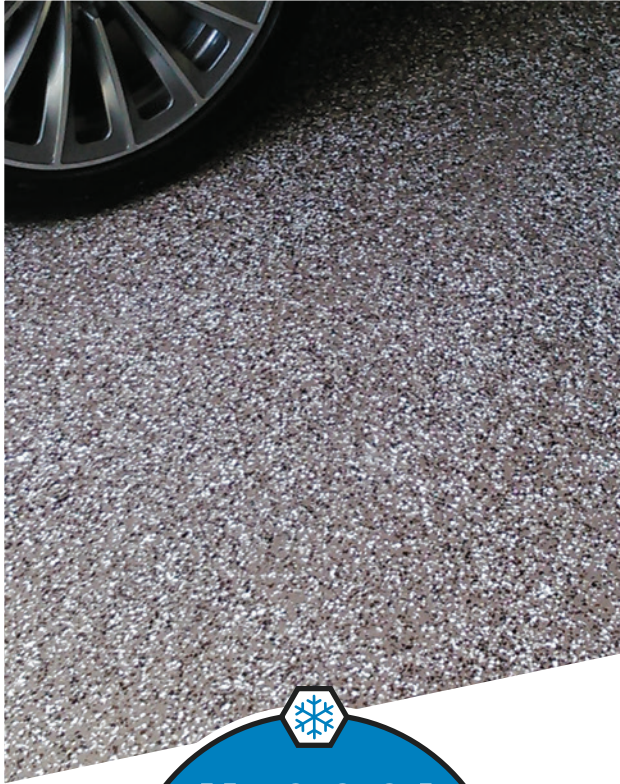

## ICT COLOR SEAL H<sub>2</sub>O

is used to enhance and protect new or existing concrete surfaces while maintaining a cooler temperature and longer lifespan with the new **H<sub>2</sub>Cool Technology**. It is designed to be used over **ICT Texture Krete 2000 Surfacing System** as well as keystone, cool deck, and all concrete surfaces. **Color Seal H<sub>2</sub>Cool** protects interior and exterior concrete and properly prepared asphalt. It is ideal for commercial and residential patios, pool decks, walkways, driveways, and garage floors.

**ICT Color Seal H<sub>2</sub>Cool** is a unique blend of 100% non-blushing, deep penetrating, self-crosslinking acrylic resin. **Color Seal H<sub>2</sub>Cool** is easy to apply, quick drying, durable, environmentally friendly, and can be easily cleaned.

# H<sub>2</sub>COOL ...the chilliest way to keep your concrete cool

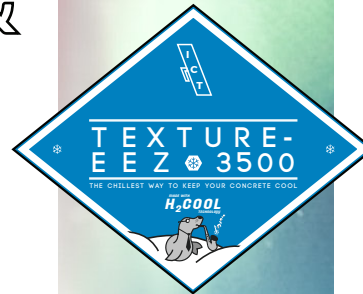

## FEATURES & BENEFITS

- \* Longer Lifespan
- \* Excellent Weatherability
- \* Durable
- \* Easy to Use
- \* Environmentally Friendly

## SURFACES TREATED

- \* Patios
- \* Pool Decks
- \* Walkways
- \* Driveways
- \* Garage Floors
- \* Masonry Surfaces
- \* Commercial & Residential

## H<sub>2</sub>COOL TSR GRAPHS

**"Total Solar Reflectance" or TSR** refers to the amount of reflective properties of a coating. Our new **H<sub>2</sub>COOL** products are formulated with solar infrared reflective pigments, which will reflect IR rays that cause surface deteriorating heat.

Reflection of IR rays will keep the surface cooler to the touch and give a much longer lifespan than traditional pigmented coatings!
