**STONE SHOW**

**TOTAL KLEAN (700)**

**Total Klean** is a concentrated, all-purpose, user friendly cleaner and degreaser ideal for removing oil and grease stains along with other contaminants.

**TOTAL PREP (720)**

**Total Prep** is formulated to dissolve efflorescence and remove surface stains such as ground in dirt, traffic marks, iron stains, etc. It cleans and primes the surface evenly and enables sealers/protectors to penetrate and cover more efficiently.

**TOTAL ETCH & CLEAN (740)**

**Total Etch & Clean** is a safe, biodegradable alternative for muriatic acid used to etch & clean concrete, brick pavers, natural stones, & travertine surfaces being coated.

STONE SHOW H<sub>2</sub>O**

- LOW VOC\***
- BREATHABLE**
- PENETRATING**
- STAIN RESISTANT**
- EASY MAINTENANCE**
- NON FILM FORMING**
- INHIBITS BIO GROWTH**
- EFFLORESCENCE RESISTANCE**

\* not including Stone Show Nano Enhancer

## STONE SHOW H<sub>2</sub>O ENHANCER

is a breathable, water-based, penetrating, low VOC water repellent designed to be used on natural stones, concrete, and other properly prepared masonry surfaces. While providing a unique and beautiful enhancement to the existing color(s) of the substrate, **ICT STONE SHOW H<sub>2</sub>O ENHANCER** also acts as a protective shield against staining, simplifies maintenance and cleaning, and disallows deterioration of the substrate caused by water presence & contaminants carried by water.

Item code: 170-1G (1 gal) & 170-2.5G (2.5 gal)

## STONE SHOW H<sub>2</sub>O INVISIBLE

is a unique waterborne technology with excellent water repellency and stain resistance. **ICT STONE SHOW H<sub>2</sub>O INVISIBLE** will not change the color characteristics of the substrate being treated, but simplifies maintenance/ cleaning and disallows deterioration of the substrate caused by water presence and contaminants carried by water. This breathable, penetrating, low VOC water-based product was developed to be used on natural stones, concrete, and other properly prepared masonry surfaces.

Item code: 171-1G (1 gal) & 171-2.5G (2.5 gal)

### SURFACES TREATED :

FLAGSTONE

LIMESTONE

SLATE

TRAVERTINE

SANDSTONE

AND MORE!

## STONE SHOW NANO ENHANCER

is a breathable, solvent-based, penetrating, water repellent designed to be used on natural stones, concrete, and other properly prepared masonry surfaces. While providing a unique and beautiful enhancement to the existing color(s) of the substrate, **ICT STONE SHOW NANO ENHANCER** also acts as a protective shield against staining, simplifies maintenance & cleaning, and disallows deterioration of the substrate caused by water presence & contaminants carried by water.  
**Not available in California.**

Item code: 172-1G (1 gal) & 172-2.5G (2.5 gal)
