### MAGTEIN® L-THREONATE PLUS

Magnesium is an important mineral involved as a cofactor in over 300 enzymatic reactions in the body.\* It is necessary for the biochemical functioning of numerous metabolic pathways in the body, including energy generation, protein synthesis, gene regulation, bone and teeth maintenance, and brain and nervous system function.<sup>1</sup> Magnesium L-threonate in the form of Magtein® is bioavailable and has been shown in an animal model to increase magnesium levels in the brain.<sup>2</sup> Magnesium is required to convert vitamin D3 to its active form and in turn, vitamin D3 supports magnesium absorption.\*

Magtein® is a trademark of Magceutics®, Inc. and is distributed exclusively by AIDP, Inc. Magtein® is protected under a family of US patents, pending patents, and is protected worldwide
