THE CHIPPYS DIFFERENCE

We carry our timber in stock, kept and stored undercover, meaning you get quality everytime.

We only supply 1st grade* timber decking.

We carry Random & Set Length in stock.

We dont pull lengths out of random packs, so you get true random length decking.

We have been selling timber for over 40 years! and all of our timber is kept undercover.

*1st grade timber: means standard & better for Australian hardwoods and select for Merbau. This means you get natural features of the timber, enhancing the natural beauty of the deck, with limited amounts of gum vein, gum pockets and larger knots.
