### New 1.6mm Corten Garden Edging x 3.0m

With fixing holes each end

Height		
Ex 300mm	\$94.50	Each
Ex 150mm	\$47.20	Each
Ex 100mm	\$34.50	Each

Corten Steel has a corrosion-retarding effect which forms a protective layer, produced by the particular distribution and concentration of alloying elements in it. The layer protecting the surface develops and regenerates continuously when subjected to the influence of the weather. In other words, the steel is allowed to rust in order to form the protective coating

Merbau is an oil based timber, even though all of our products are kiln dried some bleeding and staining may occur  
It is recommended for optimum results that panels should be pre cleaned with deck cleaner prior to oil, stain or paint
