

Safety Data Sheet

American Clay Spray

Section 1. Identification

Product Name	:	AMERICAN CLAY SPRAY
Other means of identification	:	133
Product type	:	Liquid
Identified uses	:	Automotive detailing
Supplier's details	:	AAP ENTERPRISES 1661 Pacific Ave. Unit 16 Oxnard, CA 93033
		Office: 805-486-1000 E-mail: allamericanproducts@verizon.net
Emergency telephone number (with hours of operation)	:	CHEMTREC, U.S. : 1-800-424-9300 International: +1-703-527-3887 (24/7)

Section 2. Hazards Identification

OSHA/HCS status	:	This material is not considered hazardous by the OSHA Hazard Communication Standard
Classification of the Substance or mixture	:	Not classified as hazardous under GHS
<u>GHS label elements</u>	:	
Hazard pictograms	:	
Signal word	:	None Known
Hazard statements	:	None Known
<u>Precautionary statements</u>	:	
Prevention	:	No significant skin irritation expected from a single short term exposure.
Response	:	IF ON SKIN: Wash with soap and water. Take off contaminated clothing. Wash contaminated clothing before reuse. If skin irritation occurs, get medical attention. If in eyes rinse with water for several minutes.
Storage	:	Keep container tightly closed. Store in cool place.

Section 2. Hazards Identification

Disposal : Dispose of contents/container to industrial combustion plant..

Supplemental label elements : Do not taste or swallow. Wash thoroughly after handling.

Hazards not otherwise classified : None known.

Section 3. Composition/information on ingredients

Substance/mixture : Mixture

Other means of identification : Not available

CAS number/other identifiers

CAS number : Not applicable

Product code : 133

Ingredient name	%	CAS Number
No Hazardous Ingredients		

Any concentration shown as a range is to protect confidentiality or is due to batch variation.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

Section 4. First aid measures

Description of necessary first aid measures

Eye contact : None expected to be needed, however, use an eye wash to remove a chemical from your eye regardless of the level of hazard.

Inhalation : This material does not present a hazard if inhaled. Remove victim to fresh air and call a doctor if feel unwell.

Skin contact : Wash with soap and water.

Ingestion : No need for first aid is anticipated. Wash out mouth with water. Do not induce vomiting. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.

Most important symptoms/effects, acute and delayed

Potential acute health effects

Eye contact : None Known

Inhalation : None Known

Skin contact : None Known

Ingestion : None Known

Section 4. First aid measures

Over-exposure signs/symptoms

- Eye contact** : Adverse symptoms may include the following:
pain or irritation
watering
redness
- Inhalation** : No known significant effects or critical hazards.
- Skin contact** : Adverse symptoms may include the following:
irritation
redness
- Ingestion** : No known significant effects or critical hazards.

Indication of immediate medical attention and special treatment needed, if necessary

- Notes to physician** : No specific treatment.
- Specific treatments** : No specific treatment.
- Protection of first-aiders** : No additional first aid information available.

Section 5. Fire-fighting measures

Extinguishing media

- Suitable extinguishing media** : Not combustible, Use extinguishing media appropriate for surrounding fire.
- Unsuitable extinguishing media** : No data available.
- Specific hazards arising** : Material will not ignite or burn
- Hazardous combustion products** : Carbon monoxide (CO), Carbon dioxide (CO2)
- Special protective equipment for fire-fighters** : Will not burn, no special instructions available. Use methods appropriate for surrounding materials.

Section 6. Accidental release measures

Personal precautions, protective equipment, and emergency procedures

- For non-emergency personnel** : Remove persons to safety
- For emergency responders** : Ventilate the area with fresh air.

Environmental precautions : Avoid release to the environment. For larger spills, cover drains and build dikes to prevent entry into sewer systems or bodies of water

Methods and materials for containment and cleaning up

Spill : Contain spill. Working from around the edges of the spill inward, cover with bentonite, vermiculite, or commercially available inorganic absorbent material. Mix in sufficient adsorbent until it appears dry. Prevent entry into sewers, water courses, basements or confined areas. Place in container for disposal according to local regulations . Clean up residue with water. Seal the container. Dispose of collected material as soon as possible.

Section 7. Handling and storage

Precautions for safe handling

Protective measures : Use local and general ventilation.

Warning : Do not get in eyes may cause irritation.

Conditions for safe storage, including any incompatibilities : Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool, and well-ventilated area. Keep container tightly closed and sealed until ready for use. Keep the containers labeled. Use appropriate containment to avoid environmental contamination.

Section 8. Exposure controls/personal protection

Control parameters Occupational exposure limits

Ingredient name	Exposure limits
No data available	

Section 8. Exposure controls/personal protection

Appropriate engineering controls	:	No exposure limits exist for the constituents of this product. Use local exhaust ventilation or other engineering controls to minimize exposures and maintain operator comfort. Engineering controls must be designed to the OSHA chemical specific standard. Use process enclosures, local exhaust ventilation, or other engineering controls to control airborne levels below recommended exposure limits.
Environmental exposure controls	:	Use appropriate container to avoid environmental contamination. Keep away from drains, surface and ground water.
Individual protection measures		
Hygiene measures	:	Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking, and using the lavatory, and at the end of the working period. Ensure that eyewash stations and safety showers are close to the workstation location.
Eye/face protection	:	Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gasses or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: chemical splash goggles.
Skin protection		
Hand protection	:	Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.
Body protection	:	Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
Other skin protection	:	Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
Respiratory protection	:	Use a properly fitted, air-purifying or supplied air respirator complying with an approved standard if a risk assessment indicates this is necessary. Respirator selection

Section 9. Physical and chemical properties

Appearance

Physical state	:	Liquid
Color	:	Purple
Odor	:	No Scent
Odor threshold	:	Not available
pH	:	7.0 - 8.0
Melting point	:	Not available
Boiling point	:	No data available
Flash point	:	No data available
Evaporation rate	:	Not determined
Flammability (solid, gas)	:	not relevant (fluid)
Lower and upper explosive (flammable) limits	:	Not available
Vapor pressure	:	No data available
Vapor density	:	Not available
Relative density	:	Not available
Solubility	:	Not available
Partition coefficient: n-octanol/water	:	Not available
Auto-ignition temperature	:	No data available
Decomposition temperature	:	Not available
Viscosity	:	Thin

Section 10. Stability and reactivity

- Reactivity** : No data available
- Chemical stability** : Stable under normal condition
- Possibility of hazardous reactions** : No known hazardous reactions.
- Conditions to avoid** : None Known
- Hints to prevent fire or explosion**
- Incompatible materials** : There is no additional information.

Section 11. Toxicological information

information on toxicological effects

Test data are not available for the complete mixture

Irritation/Corrosion

Sensitization

There is no data available.

Carcinogenicity

Product/ingredient name	CAS No	wt %	Classification	Number	
No data available					- - - - - -

Classification National Toxicology Program (United States) None of the ingredients are listed

Specific target organ toxicity (single exposure)

There is no data available.

Specific target organ toxicity (repeated exposure)

There is no data available.

Section 11. Toxicological information

Aspiration hazard

There is no data available.

- Information on the likely Potential acute health effects** : No hazard in normal industrial use.
- Eye contact** : No hazard in normal industrial use.
- Inhalation** : No known significant effects or critical hazards.
- Skin contact** : No Hazard in normal industrial use.
- Ingestion** : No known significant effects or critical hazards.

Symptoms related to physical, chemical, and toxicological characteristics

- Eye contact** : No hazard in normal industrial use.
- Inhalation** : No known significant effects or critical hazards
- Skin contact** : No hazard in normal industrial use.
- Ingestion** : No known significant effects or critical hazards.

Delayed and immediate effects and also chronic effects from short and long term exposure

Short term exposure

- Potential immediate effects** : No known significant effects or critical hazards.
- Potential delayed effects** : No known significant effects or critical hazards.

Long term exposure

- Potential immediate effects** : No known significant effects or critical hazards.
- Potential delayed effects** : No known significant effects or critical hazards.

Potential chronic health effects

- General** : No known significant effects or critical hazards.
- Carcinogenicity** : No known significant effects or critical hazards.
- Mutagenicity** : No known significant effects or critical hazards.
- Teratogenicity** : No known significant effects or critical hazards.
- Developmental effects** : No known significant effects or critical hazards.
- Fertility effects** : No known significant effects or critical hazards.

Numerical measures of toxicity

Acute toxicity estimates

Route	ATE Value
No data available	

Section 12. Ecological information

Toxicity

Product/ingredient name	CAS No	Species	Exposure
This material is not expected to be harmful to the ecology			

Persistence and degradability

There is no data available.

Bioaccumulative potential

Mobility in soil

Soil/water partition coefficient (Koc) : There is no data available.

Product/ingredient name	LogPow	BCF	Potential
No data available			low

Other adverse effects : No known significant effects or critical hazards.

Section 13. Disposal considerations

Waste treatment methods

Waste treatment-relevant information : Dispose of in a landfill. Disposal is not likely to be regulated.
Sewage disposal-relevant information : Spent or discarded material is non-hazardous according to environmental regulations.

Waste treatment of containers/packages : Completely emptied packages can be recycled, Handle contaminated packages in the same way as the substance itself.

Remarks : Please consider the relevant national or regional provisions. Waste shall be separated into the categories that can be handled separately by the local or national waste management facilities.

:

Section 14. Transport information

	DOT Classification	IMDG	IATA
UN number	Not regulated	Not regulated.	Not regulated
UN Proper shipping name		-	-
Transport Hazard class(es)		-	-
Packing group		-	-
Environmental hazards	No.	No.	No.
Additional Information	- none	-	-

AERG : Not Applicable

Special precautions for user : **Transport within user’s premises:** always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code : Not available.

Section 15. Regulatory information

U.S Federal regulations : List of Extremely Hazardous Substances (40 CFR 355) (EPCRA Section none of the ingredients are listed 302 and 304

Clean Air Act Section 112 (b) Hazardous Air Pollutants (HAPs) : Not listed

Clean Air Act Section 602 Class I Substances : Not listed

Clean Air Act Section 602 Class II Substances : Not listed

DEA List I Chemicals (Precursor Chemicals) : Not listed

DEA List II Chemicals (Essential Chemicals) : Not listed

SARA 302/304

Composition/information on ingredients

No products were found.

Section 15. Regulatory information

SARA 304 RQ : Not applicable.

SARA 311/312

Classification :

Composition/information on ingredients

*The specific chemical identity and/or exact percentage (concentration) of this composition has been withheld as a trade secret.

Name	%	Fire hazard	Sudden release of pressure	Reactive	Immediate (acute) health hazard	Delayed (chronic) health hazard

No data available

State Regulations

Massachusetts : The following components are listed: None

New York : The following components are listed: None

New Jersey : The following components are listed: None

Pennsylvania : The following components are listed: None

California : Proposition 65 Warning: None

Section 16. Other information

History

Date of issue mm/dd/yyyy : 06/23/2015

Version : 1

Revised Section(s) : N/A

Prepared by : All American Car Care Products

Key to abbreviations

ATE = Acute Toxicity Estimate

BCF = Bioconcentration Factor

GHS = Globally Harmonized System of Classification and Labelling of Chemicals

IATA = International Air Transport Association

IBC = Intermediate Bulk Container

IMDG = International Maritime Dangerous Goods

LogPow = Logarithm of the octanol/water partition coefficient

MARPOL 73/78 = International Convention for the Prevention of Pollution From Ships, 1973 as modified by the Protocol of 1978. ("Marpol" = Marine pollution)

UN = United Nations

Notice to reader:

To the best of our knowledge, the information contained herein is accurate. However, neither the above-named supplier, nor any of its subsidiaries, assumes any liability whatsoever for the accuracy or completeness of the information contained herein. Final determination of suitability of any material is the sole responsibility of the user. All materials may present unknown hazards and should be used with caution. Although certain hazards are described herein, we cannot guarantee that these are the only hazards that exist.
