Western Red Cedar Knotty

Exterior

Interior

Urban Cedar saunas are manufactured in Canada using **WESTERN RED CEDAR CLEAR GRADE**. This material is used extensively in saunas due to its appearance, insulating properties and smell.

We also offer a **MADE TO ORDER** service for your sauna using a lower priced cedar called **WESTERN RED CEDAR KNOTTY GRADE**. This material is the same high quality but is available at a lower price as the wood contains more knots than the clear material. Lead-time for the **MADE TO ORDER** service is 12 weeks.

Current sauna pricing for **KNOTTY CEDAR** is £2000 lower than the **CLEAR CEDAR** allowing you to order the same contemporary, high quality sauna for a lower price.

Please contact our friendly team on **01934 833 844** for more information on our **MADE TO ORDER** service.
