

Inventor Pig Puppets

Directions:

1. Cut out all the character pieces provided below.
2. Choose your character to start with.
3. Prepare your paper bag by placing it flat, with the flap facing up. Make sure the flap end is at the top so you can easily insert your hand into the open end of the bag.
4. Attach the face: Glue the character's face onto the flap, positioning it so the nose is near the edge of the flap.
5. Glue the mouth: Lift the flap and glue the mouth underneath, ensuring the flap fully covers the mouth when closed. You may need to trim the mouth to fit perfectly under the flap.
6. Add the finishing touches: Finally, glue the remaining character pieces in their appropriate places to complete your puppet.
7. Now your character is ready to play: You've created a fun paper bag puppet!

Supplies Needed

- Paper lunch bag
- Scissors
- Glue
