Inspection Before And After Installation

NOTE

1. Check whether the product list is complete and damaged before installation
2. Warning: Do not remove any parts by yourself. Any improper operation is not covered by the warranty.
3. Please watch the installation video and instructions carefully before installation
4. Please confirm whether the installation and wiring are correct before testing after installation.
5. Check whether the installed product functions normally. If there is any problem, please check whether the plug is plugged tightly
6. Check whether the function of the original vehicle is used normally. If there is any problem, please check whether the plug is plugged in tightly.
7. Please do not install the product if you receive a damaged item. Please take photos immediately and provide them to out after-sales team for confirmation. Photos should be provided that include all parts of the product and can display the damage. (If the product is notified of the damage after installation, claims and reissues will not be accepted, and you will need to purchase the parts again at your own expense.)

1. Connect the adapter with smartphone

The Tesla Wireless CarPlay Adapter supports multiple smartphone connectivity methods, including wireless CarLife, wireless CarPlay, wireless Android Auto, and wireless screen mirroring for both Apple and Android devices.

2. Adapter interface display

3. Connectivity

The phone can be connected to the Tesla car's Bluetooth to use the original Tesla sound system.

After the first connection, the phone will automatically disconnect and reconnect when used again.

4.1 Adapter power supply

Red indicator light:

- Constantly on indicates normal power supply
- Not lit indicates abnormal power supply

Green light:

- constantly on indicates normal operation
- flashing indicates that an upgrade is in progress.

The Tesla Box uses USB 5V power supply and it is recommended to use the car charger interface for power supply

4.2 Connect the adapter with the phone's CarPlay

To use wireless CarPlay, you need to connect the box's Bluetooth (name is Tsl-****). It will automatically connect on the next use after the initial setup

4.3 Connect the adapter with the phone's Android Auto

To use wireless Android Auto, you need to connect the box's Bluetooth (name is Tsl-****). It will automatically connect on the next use after the initial setup.

4.4 Connect the adapter with the phone's CarLife

To use wireless CarLife, you need to connect the box's Bluetooth (name is Tsl-****). It will automatically connect on the next use after the initial setup

4.5 Connection method between the adapter and the car

Step -1: How to connect the adapter:

The Tesla screen needs to connect to the adapter's Wi-Fi hotspot first. In the Tesla screen's Wi-Fi connection interface, select and connect to the adapter's Wi-Fi hotspot (named Tsl-****), and check "Keep connected during driving" in the Wi-Fi settings.

The initial password is: 1234678

4.6 Connection method between the adapter and the car

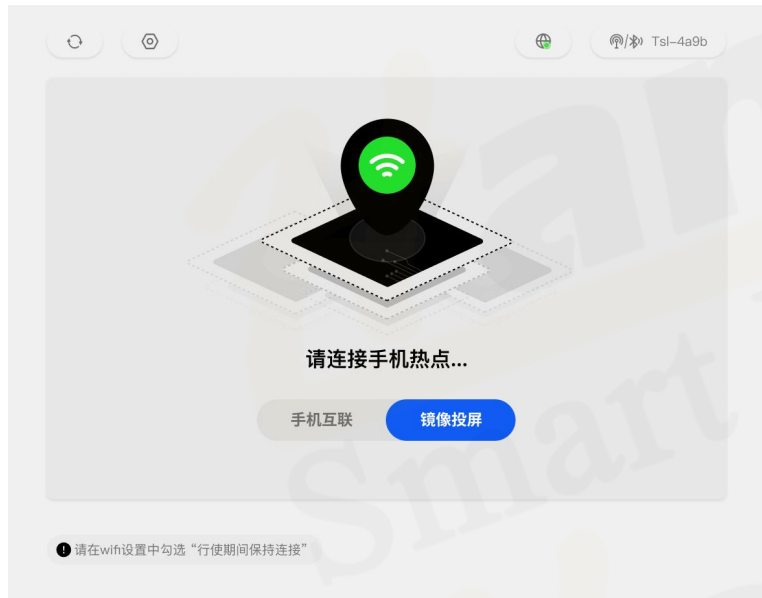

Open the car browser

Step -2: How to connect the car screen to the adapter

In the car's browser, enter the adapter's domain www.zbox.link and click the "★" button on the right to add the domain name to your bookmarks for easy access next time.

4.7 Connect the adapter to Iphone for wireless screen mirroring

Step 1: Switch to "Screen Mirroring" on the car's display

Step 2: Connect the phone to the adapter's hotspot

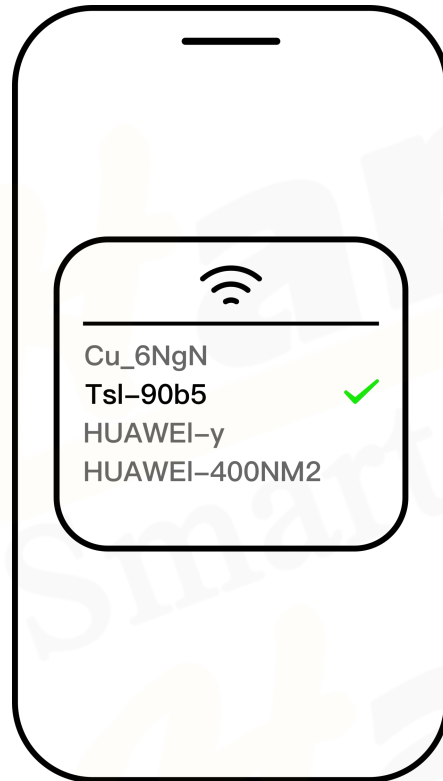

Step 3: Enter the phone's control center and select "AirPlay."

From the top of the phone screen, swipe down to enter the Control Center interface. Tap on the mirroring icon and a window will pop up, showing the device named "zj-airplay". Tap on it to connect. Once connected, the screen will start mirroring. Tap on the mirroring icon again to disconnect.

5. Upgrade

Step 1: Connect the phone to the hotspot of the adapter

Step 2: Open the web browser on the phone

OTA upgrade method: Please connect your iPhone to the car adapter hotspot and enter 3.3.3.3 in the browser. Once opened, click on "Check for Updates".
