PREMIUM FRAMELESS GLASS SOLUTIONS

INTRODUCING THE STATESMAN

Spearheading innovation the revolutionary, creative and advanced features of the STATESMAN are subtle, modern yet cutting edge and ingenious. Inspired from our STEALTH and BOSTON series, the STATESMAN takes frameless shower fittings to a whole new level.

A close look reveals it's commanding stance, smooth, subtle and flush inner and outer lines with all parts in perfect proportion. Clever engineering narrowed the hinge gap reducing (if not eliminating) any water from being able to pass through the hinge.

The newly improved STEALTH inside cover looks contemporary; but, they feature a cutting edge invisible attachment system enabling the covers to simply click on and click off. Furthermore, it wouldn't be from the Estelle stable if it didn't offer more than just looks and innovation. It had to have advanced technology and functionality.

Our vision was to create a series of first-class frameless shower fittings, boasting a strong, solid, cosmetic presence, loaded with concealed innovation and cutting edge functionality that is without equal. Remaining true to our Australian design heritage, we're very pleased to offer the STATESMAN series for your consideration.

Cover image: Located in Co. Clare Ireland, the O'Brien Castle (today known as Dromoland resort) dates back to the early 15th Century. Being of Irish decent and a family business, Estelle® took inspiration from the majestically sublime O'Brien Castle to name the Statesman series. Over the years, many famous guests have stayed at the castle including Bill Clinton, Juan Carlos I of Spain, Nelson Mandela, Muhammad Ali, Richard Branson, Jack Nicholson, Johnny Cash, Michael Flatley, Bono, the Beatles and John Travolta.
