CRANBROOK LOOM CLOTH PROTECTOR

PARTS Cloth protector (wood beam, 3.5" x 83.5") 4 small black knobs

INSTRUCTIONS

The cloth protector attaches to the side uprights at the front of the loom using the small black knobs, two knobs on each end. Note that the holes in the cloth protector beam are shifted to one side by half an inch. When attached to the loom with the holes toward the bottom of the beam, the cloth protector will extend 1/2" above the cloth beam. When attached with the holes toward the top of the cloth protector, it will be even with the cloth beam.
