Choose Wi-Fi and enter password

Your WiFi Name

Password

Next

Confirm the home router Wi-Fi signal type because a 2.4 GHz Wi-Fi is required to add a device.

Wrong password is the main reason why pairing fails. Please check your password and try again.

To ensure successful pairing,we suggest you enabling the following access, such as location,Wi-Fi,Bluetooth etc.

3 Min

Please complete the pairing within three minutes after the device is reset.
