## 2. Specifications

Model	ZDPVHMM	ZDPVHMF
Application	For SBV	For Satellite Battery
Weight	≈ 1.7kg	
Control box dimensions	228*155*54mm	
Cable length	60cm	
Max connected Battery Capacity	6,438Wh(SSS) or 4,608Wh(LFP)	
Wireless Type	Wi-Fi , Bluetooth	
Mounting Type	Wall mount is available	
Input voltage	VIN=40-60V	
Input current	Imax=30A	
Rated output power	Pe=800W (with one Micro-Inverter) Pe=1600W (with two Micro-Inverter)	

## 3. Getting started

### 3.1 What's in the box

### 3.2 Product overview

### 3.3 Operation Guidelines

No	Item	Action	Indicator	Remark
1	Pairing(Wi-Fi/Bluetooth)	Press and hold the IOT bottom for 3 seconds	IoT white indicator flashes	two beeps
		Pairing completed	IoT green indicator on	/
2	Fault reminder	APP prompts specific information	Fault red indicator on	5 beeps
3	OTA	Operate on APP	IoT green indicator flashe	/

### 3.4 Connect with SuperBase V6400/4600 or Satellite Battery B6400/ B4600

#### Step 1

Make sure the SBV/Satelite Battery is powered off first before connect the PVHub Mini and Micro-Inverter.

#### Step 2

To plug the PVHub Mini into the parallel port of SBV/Satelite Battery and MC4 connecte together with the MC4 of the micro-inverter , then plug the other end of the micro-inverter into the household mains socket.

#### Step 3

Make sure the connections above before turning on the SBV/Satelite Battery

See below connection guideline pictures :

#### Step 4

To open the App and pair it with the SBV/Satelite Battery. After pairing successfully , to set start output power from the SBV/Satelite Battery on the App .

#### Step 5

Then open the App and press and hold the IoT button for 3 seconds to pair with PVHub. At this time, the IoT indicator light flashes white quickly. After the pairing is completed, the IoT indicator light stays green.

#### Step 6

Then to set connection with the Micro-inverter on the App by scan the barcode on the backside of the Micro-inverter.

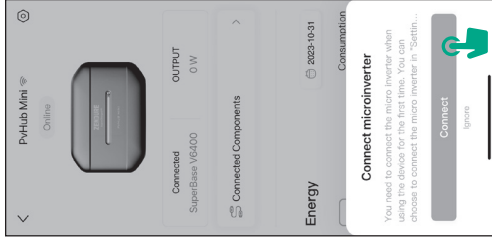

#### Step 7

Finally ,to set the output power of the microinverter in the App and it will work normally.

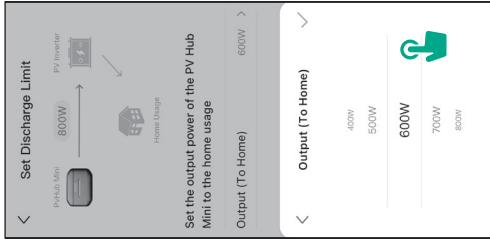

After successful pairing of SBV/Satellite Battery

### 3.5 Firmware Update

#### Firmware Update

When using your PVHub Mini for the first time, please check for the latest firmware using the Zendure app.

The app facilitates over-the-air (OTA) updates.

Read the Zendure app user guide and access the download link here: <https://app.zendure.com/download>

<https://zendure.com/pages/download-center>

#### Privacy Policy

By using Zendure Products, Applications and Services, you consent to the Zendure Terms of Use and Privacy Policy, which you can access via the "About" section of the "User"

Tips:

- Do not turn off the device while firmware is updating.
- Please update the firmware when the capacity is more than 20%, if Home Panel power by the SBV or Satellite Battery. in order to have enough power to complete the update.

## 4. FAQ

**Q: Can the SBV/satellite battery pack be expanded in parallel when connected to PVHub Mini?**

A: No.

**Q: Can photovoltaic panels be connected when PVHub Mini is connected?**

A: Yes. The XT-90 interface of SBV is 12-60VDC, 25A, 15,00W Max; the XT-90 interface of satellite battery pack is 12-60VDC, 10A, 600W Max.

**Q: When connecting to PVHub Mini, can I connect to the Home panel?**

A: Yes.

**Q: After connecting the PVHub Mini, will the SBV/satellite battery pack output power to the PVHub Mini after it is turned on?**

A: To power on the SBV/satellite battery pack, you need to connect to the App, and set up on the App to turn on the parallel port output to supply power to the PVHub Mini.

**Q: Can the microinverter output power be adjusted?**

A: Yes, settings and adjustments can be made on the App.

**Q: When the SBV/satellite battery pack is connected to the PVHub Mini, do other AC/DC output ports still output?**

A: There is output.

**Q: Can PVHub Mini be connected to its brand of microinverters?**

A: Not yet.

## 5. Troubleshooting

Indicator & alarm	Potential issue	Solution
Red fault indicator on & 5 beeps	Communication /Pairing connection /Un-match Micro-inverter	Turn off the machine and turn on to pairing again/connect the match Micro-inverter .
In case any other questions , please refer to the Zendure App for details. Or contact Zendure Customer Service for further information.
