

# Candisol™

Candisol™ provides the most potent blend of plant based, fiber digesting enzymes available for those suffering from Candida. The enzymes in Candisol™ have been proven in clinical trials, and have helped countless people live richer, fuller lives. It works very quickly, overcoming many of the common symptoms associated with yeast overgrowth, such as fatigue, foggy thinking, sugar cravings, mood swings, vaginal infections, etc., in just days without the side-effects of anti-fungals. Making a difference you can feel -- in even the worst of systemic problems -- within a week or so.

Sizes
120 Vegetarian Capsules
40 Vegetarian Capsules - Trial Size

**SUGGESTED USE:** Two capsules, at least one hour before breakfast, and two at bedtime, at least two hours after eating, until desired results are achieved. Always take on an empty stomach with 8 oz. of water. For maintenance, one capsule at bedtime.
