

The iTraQ Leaf™: Your Efficient Tracking Solution

The iTraQ Leaf™ is a streamlined, label-like tracking solution engineered for the modern needs of shipment tracking. As a one-time-use device, it ensures consistent oversight of your valuable cargo, whether across town or around the world.

Simplified Activation and Use

Being a single-use device, Leaf™ eliminates the need for recharging or maintenance. Simply press the button to activate, adhere the device to your shipment, and benefit from iTraQ's superior tracking technology.

Product Highlights

Truly Global: Track your shipments anywhere in the world. iTraQ Leaf™ knows no borders

30 Days of Service Included: Get started immediately with a complimentary 30 days of service

Instant Activation: Simply press the button to activate your device for a swift and easy setup. No complicated procedures involved.

Versatile Tracking: Pinpoints your shipment's location, whether it's stationed outdoors or nestled indoors.

Durable Battery: Equipped with an embedded battery designed to last the entire duration of its journey, ensuring consistent monitoring.

Adaptable Reporting: Tailor the reporting frequency to fit your needs, from continuous real-time updates to occasional check-ins.

Temperature & Security Monitoring: Reports ambient temperature with alerts for specified thresholds and features a light sensor to detect unauthorized access..

Intuitive Motion Sensing: Offers alerts for unexpected movements, adding an extra layer of security.

Flight Compliance: Intelligently identifies take-off and landing phases, managing the radio accordingly for both safety and adherence to regulations.

Experience Simplified Tracking with Leaf™

Crafted with precision and efficiency, the iTraQ Leaf™ is your dependable solution for all your one-time tracking needs. It's more than a device; it's a guarantee of timely and secure monitoring, every single time.

General Specifications

Dimensions	90 x 90 x 2.1 mm (3.5 x 3.5 x 0.08 in)
Weight	35 g (1.2 oz)
Battery	3.0v, primary, LiMnO ₂ , 900 mAh
Operating Temperature	-20°C ~ +60°C (-4°F ~ 140°F)

Features

Motion/Impact Sensor	Yes (trigger only)
Temperature Sensor	Yes (log and trigger)
Light Sensor	Yes (log and trigger)
Barometer Sensor	Flight Mode Detection Only

Navigation

Wi-Fi Triangulation	Yes
GPS & GLONASS	No
Base Station Triangulation / Cell-ID	Yes

Wireless

Data	LTE Cat M1
Wi-Fi	2.4 and 5 GHz (scan only)

Certifications & Airline Approvals
