# Precautions

1. Do not block the fan outlet of the room. Otherwise, it will reduce the heating and cooling effect and waste power
2. It is forbidden that the equipment is not clean. Regularly check and clean the equipment and filtering device
3. It is forbidden to touch the fan during the operation of the equipment to avoid hurting fingers
4. Pay attention to whether the rated voltage of the product is consistent with the power supply voltage of the home
5. During the operation of the equipment, it is not allowed to touch the switch with hands, let alone the electrical components
