Please, read this guide thoroughly and follow the installation and operation procedures carefully to prevent any damage to the unit and / or any of the devices it connects to.

In addition to making sure only quality materials are used for manufacturing, Aluratek is also dedicated to provide the best customer satisfaction and support.

The product focus of Aluratek is to bring simple yet elegant connectivity solutions to the consumers to enhance their consumer electronics, communications and computing experience. Each product is carefully designed with the consumer in mind. Each product is solution-driven to address the need of the consumers and deliberately planned to provide the ultimate user experience.

We hope you enjoy your Aluratek product.
 Thank you - Aluratek, Inc.

Bluetooth Transmitter - Device Operation

Charging the battery
 The battery is not fully charged and it is highly recommended that you charge ABT01F before you begin using it.

Note: Using ABT01F "out of the box" will not harm the device. You will experience reduced battery life as the unit will not be fully charged.

Connect the USB end of the cable provided to your PC or USB power adapter (not included) and the charger plug to the charging jack of ABT01F. Please charge the battery for a minimum of (3) hours. The Red LED will be on while charging. When charging is complete, the red LED will turn off.

Function	Operation	LED Indicator
Power On	Press and hold Power button for 3-5 seconds	Blue LED
Power Off	Press and hold Power button for 5-7 seconds	Red LED turns to Blue LED
Enter Pairing Mode	Ensure ABT01F is turned Off. Press and hold Power button for 8-10 seconds until LED flashes red and blue alternately	LED flashes red and blue alternately

Bluetooth Headphones - Device Operation

Charging the battery
 The battery is not fully charged and it is highly recommended that you charge ABT01FKIT before you begin using it.

Note: Using ABT01FKIT "out of the box" will not harm the device. You will experience reduced battery life as the unit will not be fully charged.

Connect the larger USB end of the provided cable to your computer / power adapter. Connect the micro smaller micro USB end to the USB port of ABT01FKIT. Please charge the battery for a minimum of 6 hours. The Red LED will be on while charging. When charging is complete, the red LED will turn Blue.

Function	Operation	LED Indicator
Enter Pairing Mode	Ensure ABT01FKIT is turned OFF. Press and hold ► button for 6 seconds.	Red and Blue LED flashes rapidly
Power On / Off	Press and hold the ► button until the red LED flashes.	Red then Off

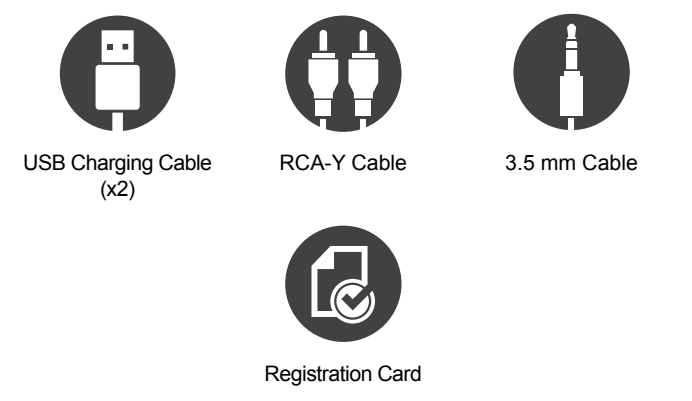

Radio and TV Interference Statement

WARNING!!! This equipment has been tested and found to comply with the limits of a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instruction, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by whatever measures may be required to correct the interference.

Package Contents

Your order has been carefully packaged and inspected. The following accessories should be included in your package. Please inspect the contents of the package to ensure that you have received all items and that nothing has been damaged. If you discover a problem, please contact us immediately for assistance.

Bluetooth Transmitter - Device Operation (using with other devices)

Note: The pairing mode will last 2 minutes. ABT01F will power off automatically if no devices can be connected within 2 minutes.

Pairing with Bluetooth receivers such as speaker, earbud, and headset:
 Please make sure the device supports A2DP profile. The pairing procedure will vary depending on the actual device. Please refer to the user guide of your device for detail instruction. The general pairing procedures are as follows:

1. Make sure ABT01F is turned Off.
2. Activate your device's Bluetooth function and set your device to pairing mode.
3. Activate ABT01F pairing mode by holding the power button for 8-10 seconds (LED flashes red and blue alternately).
4. ABT01F and your Bluetooth device will pair automatically (Please make sure they are next to each other).
5. After connecting successfully, the blue LED will flash.

Note: ABT01F will try to reconnect to the last paired device when it is powered ON / OFF again or when it is out of range.

Note: ABT01F will not receive any control / feedback from the connected device. Any function on the connected device such as play / pause will not work on the transmitter.

Note: Your paired device will auto connect to ABT01F. This may take a few seconds to two minutes to reconnect depending on your device.

Bluetooth Headphones - Device Operation (using with other devices)

Note: The pairing mode will last 2 minutes. ABT01FKIT will switch to the standby mode automatically if no devices can be connected within 2 minutes.

Pairing with the transmitter such as iPhone, smartphone, and tablet:
 The pairing procedure will vary depending on the actual device. Please refer to the user guide of your device for detail instruction. The pairing procedures are as follows:

1. Make sure ABT01FKIT is powered off.
2. Activate ABT01FKIT pairing mode by press and hold the ► button for 6 seconds. (Red and Blue LED will flash rapidly)
3. Activate your device's Bluetooth function and set your device to search for Bluetooth devices. Select ABT01FKIT when it is found.
4. For transmitter with Bluetooth version 2.1, you will not need to input a code. If you are prompted for PIN, please enter "0000".
5. If prompted by your device to connect, please select "Yes".
6. After connecting successfully, the blue LED will flash every 3 seconds.

Note: Please make sure the audio output is set to Bluetooth / ABT01FKIT for audio streaming from the device.

Warranty

Aluratek warrants this product against defect in material or workmanship for **1 YEAR** from the date of purchase.

This warranty becomes invalid if the factory-supplied serial number or "warranty void" sticker has been removed or altered on the product.

This warranty does not cover:
 A) Cosmetic damage or damage due to acts of God
 B) Accident, misuse, abuse, negligence or modification of any part of the product.
 C) Damage due to improper operation or maintenance, connection to improper equipment, or attempted repair by anyone other than Aluratek.
 D) Products sold AS IS or WITH FAULTS.

IN NO EVENT SHALL ALURATEK'S LIABILITY EXCEED THE PRICE PAID FOR THE PRODUCT FROM DIRECT, INDIRECT, SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES RESULTING FROM THE USE OF THE PRODUCT, IT'S ACCOMPANYING SOFTWARE, OR IT'S DOCUMENTATION.

Aluratek makes no warranty or representation, expressed, implied, or statutory, with respect to its products, contents or use of this documentation and all accompanying software, and specifically disclaims its quality, performance, merchantability, or fitness for any particular purpose. Aluratek reserves the right to revise or update its product, software or documentation without obligation to notify any individual or entity.

Using the Transmitter and Headphones with a TV

Use the Bluetooth Transmitter to transmit audio wirelessly from your TV to the Bluetooth headphones.

There are two ways to connect the Transmitter:

1. Connect the Transmitter to the AUX OUT / headset (3.5mm) port on the back of your TV.

2. Connect the Transmitter using the RCA-Y cable.

When using the included RCA cable to connect to a TV or tuner / receiver, please make sure you connect to the RCA OUT. Some TV's may not have an RCA OUT. Connecting to the RCA IN will not work.

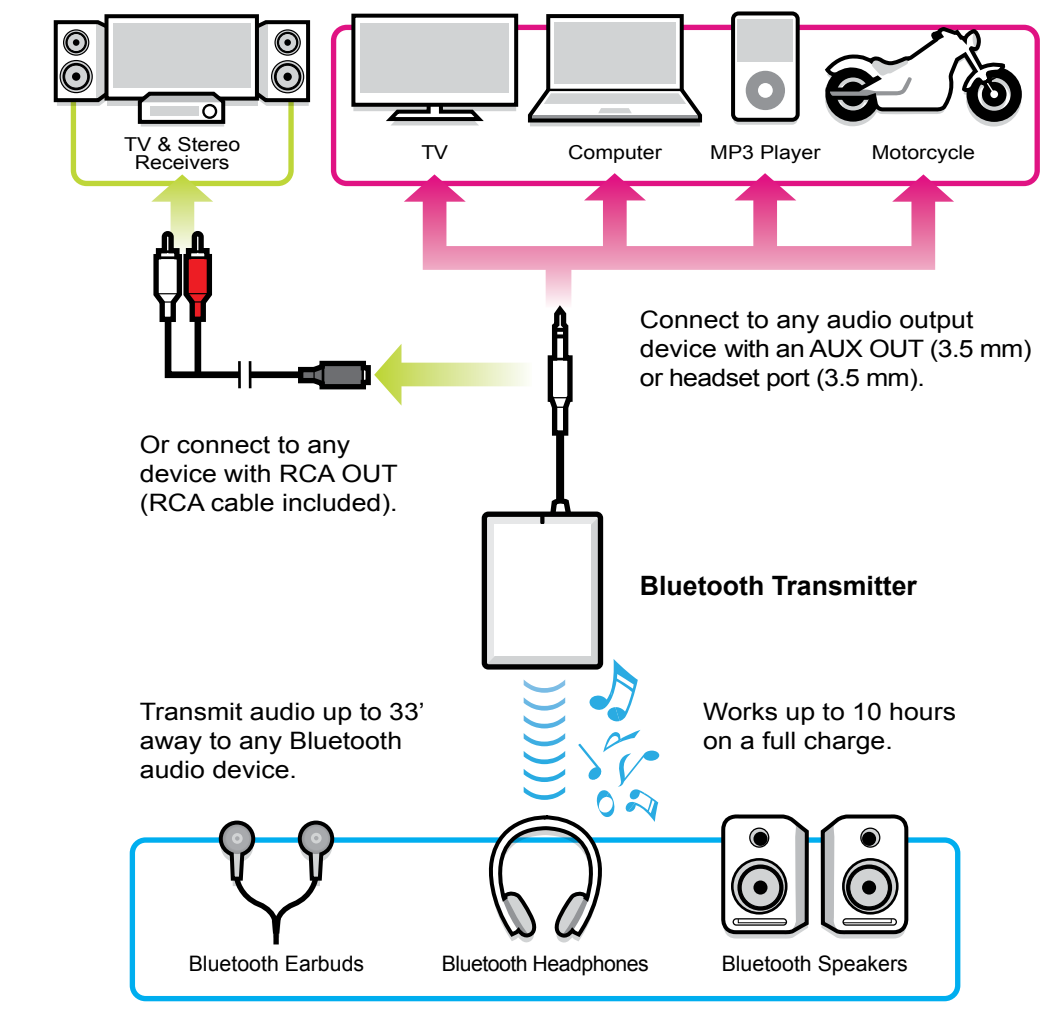

The Transmitter and Headset are pre-paired and ready for use out of the box. Simply power on both devices and enjoy!

Note: ABT01FKIT will try to reconnect when it is powered ON / OFF again or when it is out of range.

Using the Transmitter with Other Devices

Add Bluetooth transmitting functionality to any audio output device with a 3.5 mm AUX OUT / headset output / RCA output jack to Bluetooth enabled headphones and speakers.

Transmit audio up to 33' away to any Bluetooth audio device.
 Works up to 10 hours on a full charge.
