STEP 1: Smartphone or tablet with a USB-C port

Operation

Product Instructions

STEP 2: Press the MFB button for three seconds to power on the microphone. Once connected with the receiver, the status indicator light will turn green.

— MFB Button

Operation

Charging The Battery Case

The battery is not fully charged and it is highly recommended that you charge AWLMC01F before you begin using it.

Note: Using AWLMC01F "out of the box" will not harm the device. You will experience reduced battery life as the unit will not be fully charged.

Connect the larger USB end of the cable provided to your PC or USB power adapter (not included). Plug the USB-C end to the charging port on the bottom of the case. The red LED will be flashing while charging. Please charge the case for 2 hours. When charging is complete, the LED will be solid red.

Note: there is no built-in battery for the receiver. The Type-C charge port on the receiver is used to charge the connected Smartphone or tablet.

Operation

Control Functions

Function	Operation	LED Status
Power ON	Press and hold the MFB button for 3 seconds	Off to solid green
Power OFF	Press and hold the MFB button for 3 seconds	Solid green to off
Noise Reduction Level	Press the MFB button to cycle through 3 levels	Level 1: flash once Level 2: flash twice Level 3: flash three times

Radio and TV Interference Statement

WARNING!!! This equipment has been tested and found to comply with the limits of a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instruction, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by whatever measures may be required to correct the interference.
