Espuch

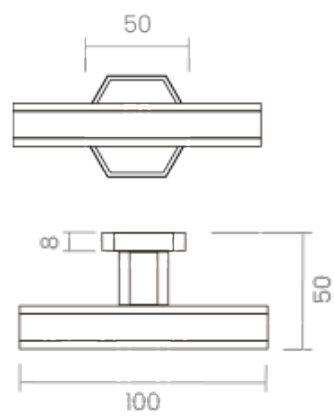

The beauty of the pure symmetry of a hexagon turned into a T-handle “T”

The Espuch T-Bar handle design has an origin and heart from Alicante. The renowned Alicante interior designer and founder of the Azul Tierra studio has been creating projects that combine luxury and sustainability for more than 20 years. Far from trends, in his aesthetic universe natural proportions coexist with the use of noble materials. This T-Bar cabinet pull design is made of forged brass and is conceived to drawers, doors and wardrobes in bedrooms, dressing rooms, kitchens and bathrooms.

Available in 5 finishes.
